Modern History Sourcebook: Abbe Sieyes: What Is the Third Estate? , Paul Halsall presents excerpts from What Is the Third Estate? as part of the Internet Modern History Sourcebook. French Revolutionary leader Emmanuel Joseph Sieyes (1748-1836) wrote the pamphlet in 1789 about the French commoners. The Enlightenment David Williams, 1999-09-23 The Enlightenment is an authoritative anthology of the key political writings from 'one of the best and most hopeful episodes in the life of mankind'. The texts are supported by a lucid introduction exploring their moral, philosophical, political and economic background, enabling the student to grasp both the context and the essence of each argument. Biographical notes and carefully selected bibliographies offer further help. The selection includes not only mainstream theories but also texts by authors actively engaged in the politics of the day, offering a broad and genuinely trans-European perspective. David Williams, a distinguished Enlightenment scholar, offers readers a view of the evolution of Enlightenment political thinking in a variety of contexts: natural law, the civil order, the nation state, government, civil rights, women's rights, international relations, economics, crime and punishment, and revolution. Students of political science, history, European studies, international relations, law and philosophy will find this an invaluable resource.

Pamphlets & Public Opinion Kenneth Margerison, 1998 In the months leading up to the French Revolution, both the royal government and its opposition relied upon pamphleteers to sway public opinion, and the number of published pamphlets reached truly astounding proportions in late 1788 and early 1789 when debate intensified on the proper method of organizing the newly recalled Estates General. Kenneth Margerison examines this pamphlet literature in an effort to determine the ideological bases upon which pamphleteers tried to influence public opinion and, ultimately, the political structure of France. He reaches the unexpected conclusion that a relatively conservative political program held wide appeal for public opinion and provided a foundation that enabled its adherents to wield influence in the National Assembly during

the summer of 1789.

The Government of Time, 2017-11-20 Can the Marxist tradition still provide new resources for thinking the specificity of historical time? This volume proposes to transform our understanding of Marxism by reconnecting with the 'subterranean currents' of plural temporalities that have traversed its development. From Rousseau and Sieyès to Marx, from Bloch to Althusser, from Gramsci to Pasolini and Postcolonialism, the chapters in this volume seek both to valorise neglected resources from Marxism's contradictory history, and also to read against the grain its orthodox and heterodox currents. Privileging not the single time of historical development, but the plural temporalities that intertwine in and constitute any given historical conjuncture, and arguing against merely subjectivist theories of temporal multiplicity, this volume studies the articulation of the real, plural temporalities of mass political action. Comprehending their dynamics is a necessary precondition for a renewed politics of emancipation. Contributors include: Luca Basso, Stefano Bracaletti, Mauro Farnesi Camellone, Fabio Frosini, Augusto Illuminati, Nicola Marcucci, Vittorio Morfino, Luca Pinzolo, Peter D. Thomas and Massimiliano Tomba.

A Rhetoric of Bourgeois Revolution William H. Sewell (Jr.), 1994 What Is the Third Estate? was the most influential pamphlet of 1789. It did much to set the French Revolution on a radically democratic course. It also launched its author, the Abbé Sieyès, on a remarkable political career that spanned the entire revolutionary decade. Sieyès both opened the revolution by authoring the National Assembly's declaration of sovereignty in June of 1789 and closed it in 1799 by engineering Napoleon Bonaparte's coup d'état. This book studies the powerful rhetoric of the great pamphlet and the brilliant but enigmatic thought of its author. William H. Sewell's insightful analysis reveals the fundamental role played by the new discourse of political economy in Sieyès's thought and uncovers the strategies by which this gifted rhetorician gained the assent of his intended readers--educated and prosperous bourgeois who felt excluded by the nobility in the hierarchical social order of the old regime. He also probes the contradictions and incoherencies of the pamphlet's highly polished text to reveal fissures that reach to the core of Sieyès's thought--and to the core of the revolutionary project itself. Combining techniques of intellectual history and literary analysis with a deep understanding of French social and political history, Sewell not only fashions an illuminating portrait of a crucial political document, but outlines a fresh perspective on the history of revolutionary political culture.
