Margaret Bunson

The Canopic Equipment Of The Kings of Egypt Aidan Dodson, 2013-10-28 First published in 1994. The term 'Canopic', as applied to the containers employed by the Egyptians to contain the embalmed internal organs of the deceased, derives from a case of mistaken identity. The aims of this monograph are primarily archaeological and historical, to document all canopic equipment attributable to the kings of Egypt, and to discuss each element in its spatial and temporal context. Translations of all available texts are provided, but no attempt is made to discuss them from a detailed religious or philological standpoint.

Encyclopedia of Ancient Egypt Margaret Bunson, 2014-05-14 An A-Z reference providing concise and accessible information on Ancient Egypt from its predynastic cultures to the suicide of Cleopatra and Mark Anthony in the face of the Roman conquest. Annotation. Bunson (an author of reference works) has revised her 1991 reference (which is appropriate for high school and public libraries) to span Egypt's history from the predynastic period to the Roman conquest. The encyclopedia includes entries for people, sites, events, and concepts as well as featuring lengthy entries or inset boxes on major topics such as deities, animals, and the military. A plan and photograph are included for each of the major architectural sites.

Artifacts from Ancient Egypt Barbara Mendoza, 2017-10-05 Primary source documents and detailed entries reveal what ancient Egypt was like, using the objects and artifacts of daily life from the period covering the Predynastic era through the Græco-Roman period (5000 BCE to 300 CE). Historians have found that valuable knowledge about long-ago civilizations can be derived from examining the simple routines of daily life. This fascinating study presents a collection of everyday objects and artifacts from ancient Egypt, shedding light on the social life and culture of ancient Egyptians. The work starts with a popular notion of ancient Egyptian beauty and gradually moves on to address various aspects of life, including home, work, communication, and transition and afterlife. Organized by topics, the work contains the following sections: beauty, adornment, and clothing; household items, furniture, and games; food and drink; tools and weapons; literacy and writing;

death and funerary equipment; and religion, ritual, and magic. Each object holds equal importance and dates from the Predynastic era to the Græco-Roman period of ancient Egypt (5000 BCE to 300 CE). A special section provides guidance on evaluating objects and artifacts by asking questions—Who created it? Who used it? What did it do/what was its purpose? When and where was it made? Why was it made?—to help assess the historical context of the object.

Egyptian Mythology, A to Z Pat Remler, 2010 Alphabetically listed entries identify and explain the places, figures, animals, beliefs, and other important themes of Egyptian mythology.

Searching for Ancient Egypt University of Pennsylvania. Museum of Archaeology and Anthropology, David P. Silverman, Edward Brovanski, 1997 A handsome, well-printed book which serves as an excellent introduction to a civilization that led the ancient Near East in social organization, painting and sculpture.--The Jerusalem Post

All Things Ancient Egypt Lisa K. Sabbahy, 2019-04-24 Written by specialists in the field of Egyptology, this book is a readable introduction to ancient Egypt, covering all anticipated subjects and stressing the monuments and material culture of this remarkable ancient civilization. The rich natural resources of ancient Egypt provided a wealth of raw material for its structures, sculptures, and art, while its geographic isolation helped to ensure the survival of its rich culture for centuries. While other references focus on the people and battles central to Egyptian history, this reference explores the material culture and social institutions of ancient Egypt. The book focuses on pharaonic Egypt, covering the period from roughly 5000 BCE to the beginning of the Greco-Roman Period in 320 BCE. At the front of the work, a timeline provides a quick look at the major events in Egyptian history, and an introduction surveys ancient Egypt's physical geography and history. Alphabetically arranged reference entries written by expert contributors then provide fundamental information about the buildings, jewelry, social practices, and other topics related to the material culture and institutions that made up the Egyptian world. Excerpts from primary source historical documents provide evidence for what we know about ancient Egyptian culture, and suggestions for further reading direct users to additional sources of information.

Death and the Afterlife in Ancient Egypt John H. Taylor, 2001-04 The text also reflects recent developments in the interpretation of Egyptian burial practices and incorporates the results of much new scientific research. Newly acquired information derives from a range of sophisticated applications, such as the use of noninvasive imaging techniques to look inside the wrappings of a mummy, and the chemical analysis of materials used in the embalming process. *Death and the Afterlife in Ancient Egypt* illuminates aspects of this complex, vibrant culture that still perplex us more than 3,000 years later.--BOOK JACKET.
