Lavinia Fontana's Mythological Paintings Liana De Girolami Cheney,2020-08-18 This volume investigates emblematic and art-historical issues in Lavinia Fontana's mythological paintings. Fontana is the first female painter of the sixteenth century in Italy to depict female nudes, as well as mythological and emblematic paintings associated with concepts of beauty and wisdom. Her paintings reveal an appropriation of the antique, a fusion between patronage and culture, and a humanistic pursuit of Mannerist conceits. Fontana's secular imagery provides a challenging paragone with the male tradition of history painting during the sixteenth century and paves the way for new subjects to be depicted and interpreted by female painters of the seventeenth century.

Giorgio Vasari Liana De Girolami Cheney,2025-03-04 This book presents Giorgio Vasari as an intellectual, painter, and philosopher—a rarely explored perspective in existing scholarship. It provides a fresh understanding of how Giorgio Vasari influenced the portrayal of successful artists in 16th-century Italy. His extensive education in classical studies, humanism, and art and his unparalleled intellectual curiosity, enthusiasm, and creative prowess enabled him to formulate a bold and assertive viewpoint on art and its history. With the support of humanists, fellow artists, and the patronage of his era, Vasari transformed the artist's role. Artists came to be perceived as divinely inspired creators of images that convey profound moral and intellectual messages. Their status was elevated from mere artisans to creators whose work brings beauty to the world and makes enduring contributions to cultural heritage.

Encyclopedia of the History of Classical Archaeology Nancy Thomson de Grummond,2015-05-11 With 1,125 entries and 170 contributors, this is the first encyclopedia on the history of classical archaeology. It focuses on Greek and Roman material, but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean, the Etruscans, and manifestations of Greek and Roman culture in Europe and Asia Minor. The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time; articles on famous monuments and sites as seen, changed, and interpreted through time; and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages. As the definitive source on

a comparatively new discipline - the history of archaeology - these finely illustrated volumes will be useful to students and scholars in archaeology, the classics, history, topography, and art and architectural history.
