**Instilling Diversity and Social Inclusion Practices in Teacher Education and Curriculum Development** Alegre de la Rosa, Olga María, Villar Angulo, Luis Miguel, 2022-06-30 There has recently been a societal push to better achieve equity for all, with many bringing to light the bias, racism, and discrimination that many factions face on a daily basis. Naturally, integrating diversity and social inclusion thoughts into the classroom is one of the best ways to start changing the mindset of society and promoting more inclusive practices in the next generations. Therefore, diversity and social inclusion have become common approaches in the planning and management of primary, secondary, and higher education schools in many international contexts. However, there are certainly challenges that must be overcome in developing these new practices and their implementation within teacher curriculum. Instilling Diversity and Social Inclusion Practices in Teacher Education and Curriculum Development provides an analysis of educational inclusion practices and identifies university

students' voices on diversity and social inclusion. It further assesses teacher performance in an international online training context and promotes a model of curriculum development on diversity and social inclusion. Covering topics such as culturally competent teachers, student academic achievement, and attitudes towards diversity, this premier reference source is an excellent resource for teacher educators, pre-service teachers, administrators and educators of both K-12 and higher education, social workers, researchers, and academicians.

**Teacher researchers in Guatemala: Lessons from an action research experience to address educational gaps in the classroom** Ana Aidé Cruz Grünebaum, Kevin Renato Rojas Sandoval, Sophia Verónica Maldonado Bode, Amber

Gove,Jennifer Elizabeth Johnson Oliva,2025-05-13 The purpose of this article is to describe the learnings of primary school teachers in rural Guatemala as a result of an action research experience. This experience took place in the context of the “Basic Education Quality and Transitions” activity, or BEQT, funded by the United States Agency for International Development (USAID) and implemented by RTI International and its partners Funcafé, Funsepa, Wayfree, and the Universidad del Valle de Guatemala (UVG). UVG’s Centro de Investigaciones Educativas (CIE), as an RTI partner, developed and implements the “Teacher Researchers” program. The action research program engages teachers in identifying and bridging gaps in students’ learning of mathematics, reading, and/or writing with students in grades 1–3. During the portion of the program described in this paper, teachers reflected on the lessons learned and strengthened their research skills in an effort to identify gaps in content, as well as applying and reflecting on potential solutions that they then translated into adjustments in lesson planning and implementation of teaching strategies. A categorical analysis of the teachers’ reflections on these experiences showed how strengthened research skills helped teachers identify areas of opportunity in using teaching strategies to improve the quality of teaching, thus allowing them to reflect on their own teaching practices.

*Cultural Management and Policy in Latin America* Raphaela Henze,Federico Escribal,2021-05-19 Cultural Management and Policy in Latin America provides in-depth insights into the education and training of cultural managers from interdisciplinary and comparative perspectives. The book focuses on the effects of neoliberalism on cultural policies across the region, and questions how cultural managers in Latin America deal not only with contemporary political challenges but also with the omnipresent legacy of colonialism. In doing so, it unpacks the methods, formats, and narratives employed. Reflecting on emerging and contemporary research topics, the book analyses the key literature and scholarly contexts to identify impacts in the region and beyond. The volume provides scholars, students and reflective practitioners with a comprehensive resource on international cultural management that helps to overcome Western-centric methods and theories.

*Manual para la elaboración y defensa del trabajo fin de Grado en Ciencias de la Salud* Rafael del Pino Casado,José Ramón Martínez Riera,2015-11-24 El objetivo de este manual es servir de base para la elaboración del trabajo de fin de grado (TFG) en los distintos grados de ciencias de la salud, recogiendo las tipologías más frecuentes en esta rama de la ciencia. La obra se estructura en cuatro módulos, los dos primeros son introductorios y los dos últimos detallan el proceso de elaboración del TFG y su exposición. La obra está pensada para que pueda consultarse con distintos grados de profundidad, desde la consulta rápida a la consulta en profundidad. Los profesores Del Pino Casado y Martínez Riera han logrado plasmar y analizar el proceso completo de elaboración del TFG de una manera clara y sintética, pero no exenta de rigor. Así, integra dos conceptos: una exposición progresiva y escalonada de contenidos que vayan de lo básico a lo avanzado; y que dichos contenidos estén orientados no solo al qué sino también al cómo , es decir, que incluyan recomendaciones prácticas de cómo pasar a la acción. Viene a llenar un vacío de libros de texto sobre este tema, laborioso para el alumnado, que en muchos casos ha recibido escasa formación sobre las materias necesarias, y difícil de orientar por parte del profesorado, que a veces adolece de indicaciones claras al respecto.
