Rules for Reactionaries Lee Bebout,2025-10-14 A tongue-in-cheek analysis of the communication strategies used to obstruct social justice movements In our increasingly polarized society, violence and echo chambers drown out all possibility of civil discourse. Thinly veiled racism, misogyny, and homophobia dominate media coverage. Again and again, national debates on race, gender, and justice go in circles. Is our language failing us? Rules for Reactionaries serves as both a faux guidebook for ultraconservative debaters and an analysis of their rhetorical strategies. Lee Bebout lays out how language can be manipulated by those who wish to suppress progressivism and maintain structures of inequality. Taking his readers across the turbulent political landscape of the late twentieth and early twenty-first century, he delineates the rhetorical strategies that have long been used to hinder progressive movements. Bebout identifies evasive tactics such as “All Lives Matter” and “Not All Men,” which promote conservative viewpoints and disrupt calls for change. It’s an old problem that keeps rearing its ugly head, and the only way to disrupt it is to anticipate and identify it. Rules for Reactionaries reveals how language both reflects and shapes our politics. By reminding us each of the power we possess, Bebout challenges us to not only combat the rhetoric of reactionaries, but to change our own way of thinking.

Give Them an Argument Ben Burgis,2019-05-31 'Ben Burgis understands that in order to persuade people to join a political movement, you have to master the techniques of rigorous argumentation. He masterfully exposes the cheap sophistry of right-wing 'philosophy' and shows why there's still a place for logic and reason in political discourse. This is a crucial handbook for those who want to 'crush' and 'destroy' the Ben Shapiros of the world.' Nathan Robinson, Editor, Current Affairs Many serious leftists have learned to distrust talk of logic and logical fallacies, associated with right-wing logicbros. This is a serious mistake. Unlike the neoliberal technocrats, who can point to social problems and tell people trust us, the serious Left must learn how to argue and persuade. In Give Them an Argument, Ben Burgis arms his reader with the essential knowledge of formal logic and informal fallacies.

Lions and Scavengers Ben Shapiro,2025-09-02 INSTANT NEW YORK TIMES BESTSELLER #1 New York Times bestselling author Ben Shapiro examines the current state of America and Western civilization, and poses a question: will we be Lions, or will we be Scavengers? In a world split between noble Lions and destructive Scavengers, only the brave can lead the way. Acclaimed writer and conservative thought leader Ben Shapiro knows that at the heart of today's conflicts—political, economic, and cultural—there's a dangerous lie: that all people are equal in ability, and that all inequality stems from oppression and exploitation. With his signature clarity and sharp insight, Shapiro refutes that lie, emphasizing that in a free country, inequality is rooted in differences of talent and work ethic—not oppression—and that the best solution to lack of success lies in duty and virtue. Lions, like America's founding fathers, strive for the highest good, building systems that promote freedom, prosperity, and equality of opportunity. Meanwhile, Scavengers degrade these ideals, spreading resentment and entitlement that threaten to dismantle the foundations of Western civilization. In *Lions and Scavengers*, Shapiro invites you to take up the mantle of the Lion and defend the principles that shape the freedom of a fair, powerful society. With the stakes higher than ever, this book is a gripping exploration of the ongoing war between those who cherish our nation and those who seek to undermine it. The triumph of the Lions is essential for America's continued success. It's a rallying cry for those who refuse to bow to the Scavengers' demands. It's time to fight back.
