## Randolph Conrad Head

### **Business Periodicals Index**, 1996

**Jenatsch's Axe** Randolph Conrad Head, 2008 During the turbulent events of Europe's Thirty Years' War, both ruthlessness and adaptability were crucial ingredients for success. In this engaging volume, Randolph C. Head traces the career of an extraordinarily adaptable and ruthless figure, George Jenatsch (1596-1639). Born a Protestant pastor's son, Jenatsch's career took him from the clergy to the military to the nobility. A passionate Calvinist in his youth, he converted to Catholicism and prudence as his power grew. A native speaker of the Romansh language, he crossed the boundaries of language and local loyalty in his service to France, Venice, and his own people. Violence marked every turning point of his life. After fleeing the Holy Massacre of Protestants in the Valtellina in 1620, Jenatsch helped assassinate the powerful Pompeius von Planta, in 1621, using an axe. He killed his commanding officer in a duel in 1629, and his own life ended in a tavern in 1639 when he was murdered -- with an axe -- by a man dressed as a bear. After his death, myth took over. Rumors spread that Jenatsch was killed by the same axe that he had wielded on von Planta -- and from there the story only got better, culminating in Conrad Ferdinand Meyer's celebrated 1876 novel, *Jurg Jenatsch*. This study meticulously traces the social boundaries that characterized seventeenth-century Europe -- region, religion, social state, and kinship -- by analyzing a distinctive life that crossed them all. Professor Randolph C. Head teaches European History at the University of California, Riverside and is the author of *Early Modern Democracy in the Grisons*.

**American Labour's Cold War Abroad** Anthony Carew, 2018-09-21 During the Cold War, American labour organizations were at the centre of the battle for the hearts and minds of working people. At a time when trade unions were a substantial force in both American and European politics, the fiercely anti-communist American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) set a strong example for labour organizations overseas. The AFL-CIO cooperated closely with the US government on foreign policy and enjoyed an intimate, if sometimes strained, relationship with the CIA. The activities of its international staff, and especially the often secretive work of Jay Lovestone and Irving Brown—whose biographies read like characters plucked from a *Le Carré* novel—exerted a major influence on relationships in Europe and beyond. Having mastered the enormous volume of correspondence and other records generated by staffers Lovestone and Brown, Carew presents a lively and clear account of what has largely been an unknown dimension of the Cold War. In

impressive detail, Carew maps the international programs of the AFL-CIO during the Cold War and its relations with labour organizations abroad, in addition to providing a summary of the labour situation of a dozen or more countries including Finland, France, Italy, Germany, Japan, Greece, and India. American Labour's Cold War Abroad reveals how the Cold War compelled trade unionists to reflect on the role of unions in a free society. Yet there was to be no meeting of minds on this, and at the end of the 1960s the AFL-CIO broke with the mainstream of the international labour movement to pursue its own crusade against communism.

*New York Magazine*, 1987-02-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.
