Nomofobia (miedo a perder el celular) Arturo Barraza Macías, 2021-03-01 El teléfono celular constituye un dispositivo tecnológico insustituible que acompaña al ser humano en todo momento y espacio. Su acceso casi generalizado a internet, la información que circula por sus diferentes aplicaciones y servicios y su facilidad de comunicar con imágenes, hacen del teléfono celular el acompañante por excelencia del ser humano. Este acompañamiento ha incrementado la presencia de la nueva realidad aumentada, y con ella la aparición de trastornos como el Vamping, la Cibercondia, la Nomofobia, la Adicción al internet o al mismo teléfono celular. La atención del presente libro se enfoca en el concepto y medición de la Nomofobia y para esto se realizan tres actividades: a) una discusión teórico conceptual sobre la Nomofobia que concluye con un concepto de la misma, b) análisis de los problemas estructurales, entre ellos la validez de contenido, de los instrumentos utilizados, y c) la construcción y validación de un cuestionario para su estudio.

Las escuelas de tu mente Cayetano Roberto Campisi, Responder a las preguntas ¿qué es la psicología? o ¿qué hacen los psicólogos?, resulta más difícil en la actualidad que hace un siglo, cuando la nueva disciplina comenzaba a dar sus primeros pasos como ciencia. Elaborar una definición clara, adecuada y objetiva de la psicología no es una empresa fácil. En el ámbito académico y científico, lejos del acuerdo, es la diversidad la palabra que mejor refleja el panorama de aproximaciones (escuelas, paradigmas, objetos de estudio y métodos) que presenta la psicología. A lo largo de su desarrollo han sido muchos, rápidos y radicales los cambios que se han producido en su seno. Uno de los rasgos característicos más relevantes de la psicología contemporánea es la amplitud de su campo, la diversidad de enfoques y métodos, lo que da lugar a controversias y enfrentamientos. Para algunos, la psicología se ocupa únicamente de la aplicación de test con el fin de diagnosticar trastornos del comportamiento, evaluar las capacidades, la personalidad, etc. Si bien ésta es una ocupación importante del profesional de la psicología, esta visión del todo por una de sus partes lleva necesariamente a una apreciación parcial de la psicología. Para otros, los psicólogos son las personas que tratan con locos, con quienes tienen problemas (psicología como psicopatología y psicología educativa) Esta visión, sin ser del todo errónea, es claramente parcial y sesgada. El estudio y tratamiento de los trastornos mentales, del comportamiento y los problemas escolares es, sin duda, un ámbito de ocupación importante, pero no el único, ya que se debe considerar la promoción de la salud mental de las personas sanas, la prevención, el uso de la misma en la mejora del rendimiento a distintos niveles (laboral, escolar, deportivo, etc.). Esto es

psicología —psicología aplicada—, pero no es toda la psicología aplicada ni es el único modo de entenderla. Este libro nos muestra las distintas variantes, corrientes y escuelas psicológicas como para que entienda esta ciencias desde sus distintas vertientes y lo hace con un idioma sencillo como para que cualquier hijo de vecino lo pueda entender.

La sensibilización estético-ambiental María del Carmen Sánchez Lemus ,María Pacheco,2024-12-29 Este libro constituye una guía con técnicas y dinámicas de sensibilización para escolares, estudiantes, profesores, y, en general, miembros de las comunidades. Basado en la tesis de doctorado de la autora y experiencias transculturales de Cuba, Brasil y Chile, se enfoca en la implementación de la Educación Estético-Ambiental como vía para la formación integral de la personalidad, a partir de una concepción unitaria de la conciencia y un enfoque holístico (transversal, transartístico y transdisciplinar) de lo estético y lo ambiental. En especial, coadyuva al fortalecimiento del trabajo docente-educativo sobre la base de la promoción de los valores autóctonos de la cultura cubana.

Siempre hay tiempo. Atención al adulto mayor privado de la libertad en Colombia Mendoza Molina, Mónica,Luna Buitrago, Laura Marcela,Bustos Benitez, Paola,Paredes Álvarez, Giovanny,Abaunza Forero, Carol Iván,2016-08-12 El programa “Atención al adulto mayor privado de la libertad en Colombia” se construyó con base en los resultados de una investigación sobre este aspecto particular, realizada en el año 2014, en la que participaron hombres y mujeres de diez Establecimientos de Reclusión del Orden Nacional -ERON-, aportando consideraciones sobre sus condiciones de vida y experiencias en prisión, desde la perspectiva de la adultez mayor. Esto permitió la definición de cinco ejes específicos de intervención (expectativa de vida, familiar, psicológico, prevención de la reincidencia e identificación de la conducta delictiva), que se desarrollan a lo largo del texto, en sus componentes conceptual, metodológico y de aplicación. El programa tiene como objeto brindar atención diferencial tanto individual, como grupal a los adultos mayores durante su tiempo de internamiento, con el fin de aportar al mejoramiento de sus condiciones de vida. Está dirigido a profesionales de diversas áreas con interés en trabajo comunitario con adultos mayores y personas privadas de la libertad, funcionarios del Sistema Nacional Penitenciario y Carcelario Colombiano -SNPC- y diseñadores de la política pública de atención a estas poblaciones específicas.

Marriage and the Culture of Peace Cecilia Sarahi de la Rosa Vazquez, Paris A. Cabello-Tijerina, 2023-03-14 This book provides skills for therapists and families to help improve interpersonal communication, promoting a new system of family coexistence and a refreshed concept of the modern marriage in society. Written from a constructivist peace perspective, the book's aim is to reduce the high statistics of intimate partner violence that occurs in Mexico, arguing that the culture of peace and how it is born in the family in turn affects society for better or for worse. Based upon interviews from 150 long-term married couples, the chapters address the components that promote peaceful dialogue in marriages, such as assertive language, active listening, tolerance to frustration, and gender perspectives. Including accessible language and several models of peace, the book uniquely examines same-sex marriages, the role of children in marriage conflicts, and prescribed gender assumptions and roles in relationships. It aims to empower family members to move away from old habits and seek a more equitable existence in marriages and society at large. This interdisciplinary text will be of great interest to family therapists and clinical social workers, as well as to students and researchers in communication and peace studies.
