Getting to Yes in Korea Walter C. Clemens Jr, 2015-11-17 President George W. Bush had pinned North Korea to an axis of evil but then neglected Pyongyang until it tested a nuclear device. Would the new administration make similar mistakes? When the Clinton White House prepared to bomb North Korea's nuclear facilities, private citizen Jimmy Carter mediated to avert war and set the stage for a deal freezing North Korea's plutonium production. The 1994 Agreed Framework collapsed after eight years, but when Pyongyang went critical, the negotiations got serious. Each time the parties advanced one or two steps, however, their advance seemed to spawn one or two steps backward. Clemens distills lessons from U.S. negotiations with North Korea, Russia, China, and Libya and analyses how they do-and do not-apply to six-party and bilateral talks with North Korea in a new political era.

Summary Guide Getting to Yes: Negotiating Agreement Without Giving in Book by Roger Fisher, William L. Ury & Bruce Patton Cityprint,2019-03-09 NOTE: This is a summary guide and is meant as a companion to, not a replacement for, the original book.Please follow this link to purchase a copy of the original book: <https://amzn.to/2F0VOf9> THE BOOK: Getting to Yes is considered the reference for successful negotiations. It presents proven tools and techniques that can help you to resolve any conflict and find win-win solutions.ABOUT THE AUTHOR: Roger Fisher (1922-2012) was an American professor at Harvard Law School. With his co-authors, he founded the Harvard Negotiation Project. William Ury is an anthropologist who works as a peace negotiator for corporations and governments worldwide. Bruce Patton is a Harvard lecturer and co-founder of Vantage Partners, an international consultancy firm that helps companies improve their negotiations. INTRODUCTION: This is sometimes hard to imagine, but just a few decades ago decisions were rarely made as a result of discussions or negotiations. They were usually made by one person: whoever was in charge. Back then, the world was a place of hierarchy: at home, every decision concerning the family was made by the wise father, and at work, everybody adhered to the path dictated by the company's boss. Today, such authoritarian structures are increasingly rare. Hierarchies are flatter, information is more accessible, and more and more people participate in decisions at all levels. Hence, it has become much more important for us to talk to others and include them in our decision-making processes. Politicians now talk to their voters, and companies encourage their employees to participate in company decisions. Even parent-child interactions are becoming more democratic. In the age of Google, parents can no longer simply say, Don't do this; it's unhealthy, because their child can just go online, find counterevidence and argue their claim. Today, finding agreements in any area of life means negotiating. Arguing with friends about which movie to see is very different to haggling over prices with suppliers or negotiating international arms embargos, yet in many ways all negotiations are similar to each other. By arming yourself with the right knowledge and tools, you can vastly improve the outcomes of all your negotiations. And since every day of your life involves some kind of negotiating, it's well worth your time to do so. Learn to negotiate well; everything is based on negotiations.

in China are included. Reflecting upon the changing nature of Chinese consumerism and international corporate behavior, the authors close with specific suggestions for those interested in doing business in China.

Teaching Copyright Sara E. Wolf, 2024-12-12 Lessons, resources, and annotated answer keys for instructors at all levels in teaching copyright law. The teaching of copyright and related concepts can easily be overwhelming to instructors who are experts in their field but may have little to no detailed understanding of copyright law. They require reliable, accessible information to coach students on copyright-related matters. Teaching Copyright: Practical Lesson Ideas and Instructional Resources provides explicit guidance based on U.S. copyright law in the teaching of copyright and related concepts to learners at schools, colleges, and universities. Instructors are supported with time-saving resources such as lesson templates, scenarios, practice activities, and a downloadable test question bank. Additionally, Bloom's Taxonomy labels lessons, activities, and assessment items to enable an appropriately diverse set of learning for students. Instead of reducing copyright to simple recall, the lessons and information in this text will help instructors develop higher-level thinking about copyright and assist them in measuring learners' abilities not just to remember, but also to analyze and evaluate copyright dilemmas.
