**Packaged Plants** Anita Hardon, Michael Lim Tan, 2024-11-12 *Packaged Plants* offers an absorbing ethnography and cultural history of how the production and consumption of plants for food and medicine has gone through ‘metabolic rifts’, increasingly processed into commodities with adverse impact on health and aggravating existing economic and social inequities. The book also describes ultra-processed foods that are linked to metabolic syndrome, including cardiovascular disease, diabetes and obesity. Divided into three parts, the first part presents a comprehensive historical analysis of the socio-metabolic shifts leading to the loss of plant sovereignty in the Philippines. It scrutinizes colonial influences, urbanization, nutritional policies, scientific research programs and neoliberal marketing strategies that have paved the way for the proliferation of packaged plant-based products passed as food or medicines. The second part delves into contemporary socio-metabolic dynamics within Puerto Princesa, interweaving urban political ecology frameworks with medical anthropological perspectives. It elucidates the precarious circumstances of daily life in a boomtown, compelling individuals to invest in supplements and engage in resource-intensive multi-level marketing endeavours. The third and final part sheds light on efforts to reclaim plant sovereignty, including a resurgence of backyard farming in response to food insecurity exacerbated by the COVID-19 pandemic. Through meticulous research and insightful analysis, *Packaged Plants* offers a compelling exploration of the intersectionality between health, economics and environment in the Filipino context.

**Whisperforge** , *Whisperforge* was conceived in the sanctum of silence, where thought kindles into flame and the soul learns the art of shaping its own echoes. In that sacred stillness, words emerged not as mere speech but as molten emotion—subtle, searing, and alive. Each poem herein is a shard of that quiet forging: a fragment of consciousness hammered by longing, burnished by empathy, and cooled in the patient waters of understanding. Here, even the most

delicate whisper is granted permanence; each utterance, no matter how faint, holds the weight of its own becoming. This collection is an alchemy of sound and solitude—an exploration of what trembles between the audible and the unspoken. Within these verses, imagination strikes against memory until sparks of revelation appear. Some poems bloom like embers, soft and luminous; others blaze, demanding to be felt as much as read. Yet all are bound by an invisible current—the ceaseless pulse of creation that threads fragility to strength, silence to song, and solitude to belonging.
