Thirty Days of Darkness Jenny Lund Madsen, Megan E. Turney, 2023-05-25 A snobbish Danish literary author is challenged to write a crime novel in thirty days, travelling to a small village in Iceland for inspiration, and then a body appears ... an atmospheric, darkly funny, twisty debut thriller, first in an addictive new series. 'An original and thoroughly enjoyable treat' Guardian BOOK OF THE YEAR 'Dark and sharp ... A lot of fun' Val McDermid 'Witty, dark, meta, ingenious and hugely compelling. I LOVED the Icelandic setting and satirical observations' Will Dean 'Hilariously scathing. Satirises genre fiction while creating a first-class example of it, full of suspects, red herrings and twists ... wit and originality make it a joy to read' Mark Sanderson, The Times CRIME BOOK OF THE YEAR **Winner of the Harald Mogensén Prize for Best Danish Crime Novel** **Shortlisted for the Glass Key Award** **Winner of the Crime Fiction Lover Award for Best Crime Book in Translation** **Longlisted for the CWA Crime Fiction in Translation Dagger** **Shortlisted for the Capital Crime Fingerprint Awards: Best Debut** COMING SOON TO NETFLIX. ----- Copenhagen author Hannah is the darling of the literary community and her novels have achieved massive critical acclaim. But nobody actually reads them, and frustrated by writer's block, Hannah has the feeling that she's doing something wrong. When she expresses her contempt for genre fiction, Hanna is publicly challenged to write a crime novel in thirty days. Scared that she will lose face, she accepts, and her editor sends her to HÚsafjörður - a quiet, tight-knit village in Iceland, filled with colourful local characters - for inspiration. But two days after her arrival, the body of a fisherman's young son is pulled from the water ... and what begins as a search for plot material quickly turns into a messy and dangerous investigation that threatens to uncover secrets that put everything at risk ... including Hannah... Atmospheric, dramatic and full of nerve-jangling twists and turns, *Thirty Days of Darkness* is a darkly funny, unsettling debut Nordic Noir thriller that marks the start of a breath-taking new series.

_____ 'Dark and atmospheric ... a bleak and beautiful evocation of Iceland, and Hannah is a pitch-perfect depiction of the bombastic neurosis that we writers know so very well' Harriet Tyce 'Such a clever, original twist on the Nordic Noir tradition - darkly humorous and utterly captivating' Eva Björg Áegisdóttir 'A fantastic debut ... Darkly funny, tense and a lot of poking fun at crime-writing' Tariq Ashkanani 'Delightfully dark' Antti Tuomainen 'So atmospheric' Crime Monthly 'An absolute gem ... a superb mix of humour and dark, twisty crime fiction with an added layer of contemplation regarding what makes books 'literary'. The Icelandic setting is perfectly drawn ... Not to be missed' Yrsa

Sigurðardóttir `Shades of Fargo and Twin Peaks - and there's no higher praise than that. Absolutely brilliant!´ Rod Reynolds
`A truly original thriller that perfectly balances humour and suspense´ Vogue `A hugely enjoyable read with thrills and
laughs, as Hannah sticks her nose in where it's not welcome´ Michael J

The New Sensational 2024 South Beach Diet Cookbook Avery Hannah,2023-08-12 The South Beach Diet is a commercial diet plan that Dr. Arthur Agatston and dietitian Marie Almon designed in the mid-1990s. It became popular after 2003, with the launch of a best-selling book. At first, it aimed to help people to lower the risk of heart disease, but it rapidly became popular as a diet for losing weight. Dr. Agatston devised the diet after noticing that many low-fat, high-carb diets were not helping individuals to lose weight in the long term. The diet claims not to be a traditional low-carb diet. Instead, it focuses on selecting the right carbohydrates, or carbs. These include whole grains, specific fruits and vegetables, appropriate fats, such as olive oil, and lean protein sources. It recommends avoiding certain carbohydrates, based on their glycemic index (GI) score. Foods with a high GI score tend to contain refined carbohydrates, for example, white sugar. The body digests these foods quickly, and this can lead to blood sugar spikes. The person feels satisfied after eating these foods, but not for long. They will soon feel hungry again. Wholemeal foods that contain unrefined carbs have a lower GI score. The body digests these foods more slowly, and they release their energy over time. This helps to prevent blood sugar spikes and enables a

person to feel full for longer. They will not feel hungry for some time. it is an effective and flexible way of losing weight, without having to count calories.
