Mapping Medieval Identities in Occitanian Crusade Song Rachel May Golden, 2020 Mapping Medieval Identities in Occitanian Crusade Song focuses on two twelfth-century musical-poetic practices of southern France - the sacred Aquitanian versus and the vernacular troubadour lyric - and newly interprets them within their shared context of the early Crusades.

Music in Renaissance Florence: Studies and Documents Frank A. D'Accone, 2024-10-28 Based on previously unpublished documents, Frank D'Accone sets the background for the musical efflorescence that occurred in Florence in the later 15th century and the emergence in the early 16th century of a new Florentine school of composers. Tracing the origins and development of musical chapels at the Cathedral and Baptistery, and the growth of musical establishments at several other churches such as the Santissima Annunziata, Santa Trinita and San Lorenzo, D'Accone examines the effect of Medici patronage, on the one hand, and the impact of Savonarola, on the other, and at the careers of individual composers such as Heinrich Isaac.

Unlocking Meaning in Art Song Beverly Stein, 2024-08-20 Unlocking Meaning in Art Song teaches singers how to analyze songs in order to discover deeper meanings and create more compelling interpretations and performances. The first

part of the book introduces important practical skills for analyzing the text as well as key musical elements including melody, rhythm, structure, linear motion, and harmony. The remainder of the book presents an in-depth guided analysis of twenty Schubert songs. The questions and prompts in these chapters allow students, singers, and other readers to discover for themselves the amazing ways in which music and expressive meaning are structured. Songs range from simpler analytical difficulty (such as *An die Musik*) to medium difficulty (such as *Gretchen am Spinnrade*), and finally to more complex (such as *Erlkönig*). The techniques presented in this book can be applied to all types of songs, allowing singers to build critical skills and artful consciousness. This is an ideal resource for song literature courses, voice teachers, students, collaborative pianists, and theory faculty.
