Manual of Judaeo-Romance Linguistics and Philology Guido Mensching, Frank Savelsberg, 2023-10-24 This manual provides a detailed presentation of the various Romance languages as they appear in texts written by Jews, mostly using the Hebrew alphabet. It gives a comprehensive overview of the Jews and the Romance languages in the Middle Ages (part I), as well as after the expulsions (part II). These sections are dedicated to Judaeo-Romance texts and linguistic traditions mainly from Italy, northern and southern France (French and Occitan), and the Iberian Peninsula (Catalan, Spanish, Portuguese). The Judaeo-Spanish varieties of the 20th and 21st centuries are discussed in a separate section (part III), due to the fact that Judaeo-Spanish can be considered an independent language. This section includes detailed descriptions of its phonetics/phonology, morphology, lexicon, and syntax.

Elsevier's Dictionary of Commercial Terms and Phrases in Five Languages Barry Léon Appleby, 1984 The technical progress of the 20th century has led to revolutionary changes in the world of commerce, which have proceeded at an

increasingly fast pace since the end of the Second World War. Trade has become internationalized. The container and, later, the computer have made many long-established business routines obsolete and required the creation of new ones. Today's businessmen must be equipped with a knowledge of economics, finance, law and technology in order to be able to make the right decisions. This work is an attempt to reflect the complexity of modern commerce. Terms have been selected from a wide range of fields, including economics, finance, banking, stock-broking, customs procedures, and shipping. Account has also been taken of the fact that not all countries in the world are at the same level of development and so a number of older terms relating to customs procedures and piece-goods shipping procedures have been retained. Unlike the majority of such works, this book includes Swedish equivalents as an acknowledgement of the importance of the Nordic countries in world trade.

Original Short Stories, Volume II (Esprios Classics) Guy De Maupassant, 2020-10-29 Henri René Albert Guy de Maupassant (1850 -1893) was a 19th-century French author, remembered as a master of the short story form, and as a representative of the Naturalist school. Maupassant was a protégé of Gustave Flaubert and his stories are characterized by economy of style and efficient, seemingly effortless dénouements (outcomes). Many are set during the Franco-Prussian War of the 1870s, describing the futility of war and the innocent civilians who, caught up in events beyond their control, are permanently changed by their experiences. He wrote 300 short stories, six novels, three travel books, and one volume of verse. His first published story, *Boule de Suif* (The Dumpling, 1880), is often considered his masterpiece.

Original Short Stories, Volume 2 (of 13) Guy De Guy De Maupassant, 2018-03-05 Original Short Stories - Volume 01 is presented here in a high quality paperback edition.
