La formación inicial del profesorado en España: análisis de los planes de estudios tras una década desde su implementación , En este libro se presenta un análisis de todos los planes de estudios que definen la actual formación inicial del profesorado de Educación Básica en el conjunto del territorio español. Esto incluye 82 grados de magisterio de Educación Primaria y 72 másteres de formación del profesorado de Educación Secundaria. Se trata de un producto que es resultado de una investigación titulada La iniciación en el desarrollo profesional docente en la educación obligatoria: de las políticas supranacionales a las trayectorias profesionales, de la convocatoria nacional de I+D+i de 2015 del Ministerio de Economía y Competitividad. En concreto, uno de los objetivos del mencionado proyecto pretendía estudiar los procesos de organización y diseño de los itinerarios de formación inicial que llevan a cabo las universidades españolas, del que se deriva el presente libro. La estructura del libro se articula en dos grandes bloques. El primero de ellos recoge el análisis de los grados de Educación Primaria mientras que el segundo bloque se centra en los másteres de Educación Secundaria. A modo de epílogo se incluye un capítulo final conclusivo en el que se describen los principales retos e incertidumbres con que se encuentra en la actualidad la formación inicial de nuestros docentes.
