Camille DeAngelis

52 Quotes to live by Zett Why, 2012 *52 Quotes to Live By* is a Self Help category book written by Zett Why. It's a spiritual and philosophical book that discusses what really makes us happy. Due to many objective and subjective reasons, we are often forced to go in directions which wouldn't be our choice under other conditions. We usually follow the goals imposed by society, friends, or just egoism created by ourselves. The more intellectual we become, the less often we feel satisfaction in our consciousness. We postpone moments of happiness to particular points in time, and believe that we will be happy when we achieve them. But right after having achieved them, we set new goals, and go on to the next goal. This race has no end... Oriental wisdom says - if you don't let the bee go out of the hive, she will not be able to bring back nectar. Letting go of your knowledge is an art and the high road to wisdom. Wisdom accommodates opposites. The intellect is not capable of this. You have to let go of Rightness, too. Then you won't be hurt by knowing. Only this will help you become reborn, and only this will let you find joy in simple things. Only this way leads to happiness... Pleasure in consciousness is all that we need. It's a guiding star, showing us whether we are on the right Way, or not. Alienation from pleasure is called Suffering. Pleasure seeking (desire) is called Hope. The appearance of a pleasurable moment - Happiness. Permanence in being in a condition of pleasure is called Love. A condition of pleasure which involves all your entity is called Nirvana. People who are able to stay in a condition of overpowering pleasure in consciousness all the time, call it the Supreme Truth. Here is all that is Human... In his book, Zett Why encourages learning to differentiate real joy from egoism. He also offers 52 Ways about how to achieve a feeling of satisfaction in consciousness. In describing the ways, Zett analyzes aspects of daily life and introduces practical recommendations about how to find our real I, and joy in our daily life.

A Bright Clean Mind Camille DeAngelis, 2019-10-15 Discover how your diet may affect your creativity, how going vegan is like giving yourself brain food, and how to incorporate veganism into your life. When author and certified vegan lifestyle coach Camille DeAngelis is asked how she feels satisfied on a vegan diet, she thinks of the moment in *James and the Giant Peach* when the Grasshopper and the Centipede fret that they have nothing to eat until James points out that they're traveling inside an enormous piece of fruit. There is plenty, Camille reminds us in this self-help motivational book for artists and creatives. Everything we could ever want to eat, and more, is all around us. Because we live in a culture in which the eating and wearing of animals is taken for granted, we rarely recognize our limiting meat-centric mindset. But if we can employ our imagination to create worlds from scratch, we can surely use it to envision a new way of seeing ourselves in relation to the animals we eat. On the other side of this brain transformation is a lifestyle that is ideal for our own health and emotional well-being and is much more environmentally sustainable. Camille believes that creative hobbies and habits reinvigorate one's primary work. But she knits, sews, embroiders, and bakes for the pleasure of it, too. Her productivity and brain power have been remarkable since going vegan seven years ago, and even more importantly, she no longer feels any of the frustration or uncertainty artists tend to accept as part of the creative process. If you're a creative suffering from brain fog, *A Bright Clear Mind* can help. Praise for *A Bright Clear Mind* "If you are a maker or an artist who feels anxious, depressed or just plain not feeling up to par, I urge you to read this book. In the pages you will discover how to wake up your life force by embracing a more connected way of living and eating." —Elise Marie Collins, author of *Super Ager: You Can Look Younger, Have More Energy, A Better Memory and Live a Long and Healthy Life* "DeAngelis roundly disproves the theory that plant-eaters are somber moralists . . . Getting to peer into the lives and creative processes of these vegan visionaries makes me want to write and dance and organize my cupboards and make a tofu frittata." —Victoria Moran, author of *Creating a Charmed Life and Main Street Vegan*

Mitch Horton, 2021-07-23 In his book, Change Your Mind To Change Your Life, Mitch Horton draws richly on his personal journey to know God as he addresses the problem of out of control thinking in a Christian's daily life. In this book, Mitch challenges the Christian to seek to change their hurtful thinking patterns through a four step process of mind renewal. Mitch also addresses from a Biblical perspective the need for meditation in the Word of God in a Christian's personal life. Mitch leaves the reader with a supply of hundreds of scriptures that show who they are in Christ and that can be referenced for a daily time of scriptural meditation in God's Word.

Crisis in Consciousness J Krishnamurti, 2022-09-09 Krishnamurti posits that if the politicians and scientists wanted to end starvation in the world it could be done—food, clothing, and shelter for everyone. 'It could be done, but they are not going to do it as long as their thinking is based on nationalism, on motives of their own personal profit. And even if this far-reaching outward change were brought about, it seems to me that the problem is much deeper. The problem is not merely starvation, war, the brutality of man to man; it is the crisis in our own consciousness. Fundamentally the problem lies within.' In this volume, Krishnamurti takes great care to elucidate this necessity of a revolution within our consciousness—where the problem lies—before we expect any kind of revolutionary change outside of ourselves. Insights into Education presents the

educational philosophy of J. Krishnamurti in an easy to use, topic-based format. It is a practical handbook that comes alive when used as an introduction to group investigation and dialogue. What it offers to teachers everywhere is an inroad into the many matters of concern with which they are faced on a daily basis. That we cannot continue as we have been doing, with rote-learning, fact-finding, and a modicum of analysis as the building blocks of education, is obvious to anyone who is at all concerned with teaching and learning in a world with accelerating technological advancement, alienation, and despair. It is these very issues that are tackled here, sometimes implicitly but always at depth. What Krishnamurti proposes, and here discloses, is a different approach to learning altogether, one that distinguishes itself radically from what we normally understand by that term: the accumulation of knowledge, with its application and testing. By narrowing down our understanding to the pragmatic and the measurable, we forfeit the opportunity to probe deeply and to awaken intelligence in our students and in ourselves. What is meant by intelligence in this context is not the capacity to memorize and measure, but that subtler ability to see the whole which comes alive in a human being when he/she sees the limits of the measurable. To awaken this intelligence is the goal of education. When Krishnamurti's Notebook first became available in 1976, it was soon realized that it was a spiritually unique document giving his perceptions and experiences and describing his states of consciousness. It is a kind of diary but one that is little concerned with the day to day process of living, though very much aware of the natural world.
