F. P. Hanna

The Rights of Women in Islam Asghar Ali Engineer, 1992 This book is a long-overdue reassessment of women's rights in Islam which have long been widely misunderstood and misinterpreted. The fundamentalists, unmindful of the social context in which Quranic verses on the subject were written, have tried to portray men as superior human beings to women. The author, a renowned scholar, has sought to set the record straight by reinterpreting the women's rights in the true Quranic spirit. He argues, quite convincingly, that the Holy Book gives equal rights to both the sexes and that it does not discriminate between them in respect of personal, democratic and human rights. An activist in women's struggle for equality, he has provided Muslim feminists with a powerful weapon in their fight for equality with men. He examines in depth the question whether in secular society Muslim Personal Law needs any change, and, if so, in which direction reforms should be undertaken.

Believing Women in Islam Asma Barlas, 2019-01-16 Does Islam call for the oppression of women? Non-Muslims point to the subjugation of women that occurs in many Muslim countries, especially those that claim to be Islamic, while many Muslims read the Qur'an in ways that seem to justify sexual oppression, inequality, and patriarchy. Taking a wholly different view, Asma Barlas develops a believer's reading of the Qur'an that demonstrates the radically egalitarian and antipatriarchal nature of its teachings. Beginning with a historical analysis of religious authority and knowledge, Barlas shows how Muslims came to read inequality and patriarchy into the Qur'an to justify existing religious and social structures and demonstrates that the patriarchal meanings ascribed to the Qur'an are a function of who has read it, how, and in what contexts. She goes on to reread the Qur'an's position on a variety of issues in order to argue that its teachings do not support patriarchy. To the contrary, Barlas convincingly asserts that the Qur'an affirms the complete equality of the sexes, thereby offering an opportunity to theorize radical sexual equality from within the framework of its teachings. This new view takes readers into the heart of Islamic teachings on women, gender, and patriarchy, allowing them to understand Islam through its most sacred scripture, rather than through Muslim cultural practices or Western media stereotypes. For this revised edition of *Believing Women in Islam*, Asma Barlas has written two new chapters—"Abraham's Sacrifice in the Qur'an" and "Secular/Feminism and the Qur'an"—as well as a new preface, an extended discussion of the Qur'an's "wife-beating" verse and of men's

presumed role as women's guardians, and other updates throughout the book.

The Rights of Women in Islam H. Jawad,1998-06-30 It has been argued that Islam liberated Muslim women by granting them full rights as citizens. Yet in reality we see that women have long been subjected to both cultural and political oppression. Instances such as forced marriages are sadly common in the Muslim World, as are restrictions on education and on their role in the labour force.

The book delves into various aspects of women's rights, including education, work, marriage, divorce, inheritance, and protection, among others. Each chapter of the book examines a specific right or aspect of women's rights in Islam, providing a thorough analysis supported by Quranic verses and hadiths. The book emphasizes the importance of treating women with dignity, respect, and compassion, and highlights the equality of women and men in the eyes of Islam. Women's Rights in Islam: A Comprehensive Guide from the Quran and Hadith also addresses contemporary challenges and opportunities for women in the context of Islamic teachings. It serves as a valuable resource for anyone seeking to understand and uphold the rights of women in Islam, and promotes a deeper understanding of the true teachings of Islam regarding gender equality and women's empowerment.

Women in Islam F. P. Hanna,2015-03-01 One of the most controversial issues of our time is the rights of women in the world in general and in Islam and Islamic law in particular. The issue, for example, of wearing the Burka (the Hijab) by Muslim women in public places, schools, and in courts has made it recently to the front covers of most newspapers and magazines. Some countries have already banned the Burka in public places; others are reluctant for fear of limiting freedom and multiculturalism. But, what happens to a western woman who goes to a Muslim country, such as Saudi Arabia, where Islamic law (the Sharia) is applied? Is she allowed to wear a mini-skirt or a dress of her liking in public places? Or, is she able to wear a bikini on the beach? Almost all Muslim scholars and writers, including women, have defended the position of women in Islam. While they draw their arguments on a very limited number of verses (Surah) in the Qur'an and Hadith, however, they take them out of their context in trying to prove that women under Islam are free and their human rights are protected. This book shows how Islam has always considered women as inferior to men in every aspect: physically, intellectually, morally, and religiously. Their demise and denial of their basic rights are God sanctioned laws that every Muslim follows, not just 'fundamentalists'. Indeed, the Qur'an remains for all Muslims, the uncreated word of God Himself. It is valid for all times and places; its ideas are absolutely true and beyond all criticism. To question it is to question the very

word of God, and hence blasphemous. A Muslim's duty is to believe it and obey its divine commands ... blindly. This non-fiction book reveals the shocking truth about the real position of women in the Qur'an, the Hadith, in Islamic law (the Sharia) and how Islam is deeply anti-women. It reports the shocking truth of how women are denied their basic human rights in the Islamic law and ... in real life

The Qur'an, Women, and Modern Society Asgharali Engineer, 2005 Reinterprets divine injunctions from the Quran and traditional practices in Islam in light of the fundamental Islamic values of justice and equality on women's status. This work presents sociopolitical values and medieval social ethos as the origins of repressive practices, discussing controversial issues such as polygamy, and family planning.

Women's Rights, the Quran and Islam Lisa Spray, 2002 Written for Western readers by an American Muslim who gives a perceptive and personal look at women's rights in Islam. She relates her own struggles with inequity and their resolution. Includes stories of other women from around the world.

Heart's Surprise Lisa Spray, 2001 An American Muslim woman's lively answer to Islamic women's issues using the Quran, Islam's scripture. She demonstrates that culture is the source of traditional women's issues and other negative Western stereotypes. Quran condemns terrorism, aggression, oppression, intolerance, and inequality. A must-read.

Women, the Koran and International Human Rights Law Niaz A. Shah, 2006 Religion plays a pivotal role in the way women are treated around the world, socially and legally. This book discusses three Islamic human rights approaches: secular, non-compatible, reconciliatory (compatible), and proposes a contextual interpretive approach. It is argued that the current gender discriminatory statutory Islamic laws in Islamic jurisdictions, based on the decontextualised interpretation of the Koran, can be reformed through Ijtihad: independent individual reasoning. It is claimed that the original intention of the Koran was to protect the rights of women and raise their status in society, not to relegate them to subordination. This Koranic intention and spirit may be recaptured through the proposed contextual interpretation which in fact means using an Islamic (or insider) strategy to achieve gender equality in Muslim states and greater compatibility with international human rights law. It discusses the negative impact of the so-called statutory Islamic laws of Pakistan on the enjoyment of women's human rights and robustly challenges their Koranic foundation. While supporting the international human rights regime, this book highlights the challenges to its universality: feminism and cultural relativism. To achieve universal application, genuine voices from different cultures and groups must be accommodated. It is argued that the women's human rights regime does not cover all issues of concern to women and has a weak implementation mechanism. The book argues for effective implementation procedures to turn women's human rights into reality.

Women in the Qur'an Asma Lamrabet, 2016-07-25 Today, the issue of Muslim women is held hostage between two perceptions: a conservative Islamic approach and a liberal Western approach. At the heart of this debate Muslim women are seeking to reclaim their right to speak in order to re-appropriate their own destinies, calling for the equality and liberation that is at the heart of the Qur'an. However, with few female commentators on the meaning of the Qur'an and an overreliance on the readings of the Qur'an compiled centuries ago this message is often lost. In this book Asma Lamrabet demands a rereading of the Qur'an by women that focuses on its spiritual and humanistic messages in order to alter the lived reality on the ground. By acknowledging the oppression of women, to different degrees, in social systems organized in the name of religion and also rejecting a perspective that seeks to promote Western values as the only means of liberating them, the author is able to define a new way. One in which their refusal to remain silent is an act of devotion and their demand for reform will lead to liberation. Asma Lamarbet is a pathologist in Avicenna Hospital, Rabat, Morocco. She is also an award-winning author of many articles and books tackling Islam and women's issues. Myriam Francois-Cerrah is a writer and broadcaster whose articles have been published in the Guardian, Salon, and elsewhere.

Status of Women Syed Mohammed Ali Khatib, 2017-07-24 This book is written to display the Glorious status, Rights and Importance of Women in Islam. Most of the work included in this book is accompanied by authentic references. It compares the status of women before and after the Arrival of Prophet MUHAMMAD (Peace be upon HIM). This book emphasises the Rights of women through the verses of Holy Quran and the Hadiths of Prophet MUHAMMAD (Peace be upon HIM). It's a short but important book where the reader will quickly grasp the points that have been mentioned in this book and will soon understand the status of women and hopefully will begin to respect women more than before. Now-a-days people think that, Islam suppresses the status of women. They think women have an inferior level. But this book will clear all the misconceptions the modern world has about Women in Islam. I hope that after reading this book the reader will have a clear idea about the glorious status, rights and importance of women in Islam.

Feminists, Islam, and Nation Margot Badran, 1996-04-01 The emergence and evolution of Egyptian feminism is an integral, but previously untold, part of the history of modern Egypt. Drawing upon a wide range of women's sources--memoirs, letters, essays, journalistic articles, fiction, treatises, and extensive oral histories--Margot Badran shows how Egyptian women assumed agency and in so doing subverted and refigured the conventional patriarchal order. Unsettling a common claim that feminism is Western and dismantling the alleged opposition between feminism and Islam, the book demonstrates how the Egyptian feminist movement in the first half of this century both advanced the nationalist cause and worked within the parameters of Islam.

Women, Islam and International Law Ekaterina Yahyaoui Krivenko, 2009 Islam and women's (TM)s human rights entertain an uneasy relationship. Much has been written on the subject. This volume addresses it from a new perspective. It attempts

to define some basis for constructive dialogue and interaction in the context of international law and, more precisely, in the context of participation of many Muslim States in the United Nations Convention on the Elimination of All Forms of Discrimination Against Women. Having discovered a constructive potential in both Islam and womena (TM)s human rights, the author concentrates on the role which international law should play in promoting dialogue and constructive interaction. This is done mainly through analysis of the regime of reservations and of the practice of reservations developed in the context of Muslim Statesa (TM) participation in the CEDAW. The basic thesis defended is the following: Islam as articulated in the practice of States and womena (TM)s human rights, as reflected in international instruments, are both results of human activity. Their analysis in this study reveals more commonalities than one might expect. International law should be more attentive to their voices and more innovative in using these commonalities in order to promote constructive dialogue between them and thus help to improve the situation of women suffering from discrimination and inequalities.

Changing Gender Norms in Islam Between Reason and Revelation Marziyeh Bakhshizadeh, 2018-07-16 Women's movements in Islamic countries have had a long and arduous journey in their quest for the realization of human rights and genuine equality. The author examines whether discriminatory laws against women do in fact originate from Islam and, ultimately, if there is any interpretation of Islam compatible with gender equality. She investigates women's rights in Iran since the 1979 Revolution from the perspectives of the main currents of Islamic thought, fundamentalists, reformists, and seculars, using a sociological explanation.
