**India's Pakistan Conundrum** Sharat Sabharwal, 2022-02-17 Historically, the relationship between India and Pakistan has been mired in conflicts, war, and lack of trust. Pakistan has continued to loom large on India's horizon despite the growing gap between the two countries. This book examines the nature of the Pakistani state, its internal dynamics, and its impact on India. The text looks at key issues of the India-Pakistan relationship, appraises a range of India's policy options to address the Pakistan conundrum, and proposes a way forward for India's Pakistan policy. Drawing on the author's experience of two diplomatic stints in Pakistan, including as the High Commissioner of India, the book offers a unique insider's perspective on this critical relationship. A crucial intervention in diplomatic history and the analysis of India's Pakistan policy, the book will be of as much interest to the general reader as to scholars and researchers of foreign policy, strategic studies, international relations, South Asia studies, diplomacy, and political science.

**India and Pakistan** Duncan McLeod, 2016-12-05 Are India and Pakistan rivals or enemies? Despite a voluminous output of political and, in particular, historical accounts of this extraordinary and unique relationship in international politics, there has been little attempt to theorize the culture of violence between these two states. As a consequence, the study of India-Pakistan relations suffers from what the author labels historical reiteration - that is, the dispute is historicized in a way that reproduces the preconceived division of 1947. Duncan McLeod moves the debate away from historical reiteration to instead theorize on the levels, nature and culture of violence between India and Pakistan since partition and independence in 1947. He examines the politicization of culture, cultures of rivalry and conflict, enmity and unlimited conflict. The volume will appeal to students and scholars in the fields of political theory, Asian politics and political sociology.

**Bangladesh, India & Pakistan** K. Jacques, 1999-12-14 This book provides a broad, analytical study of Bangladesh's

relationship with India and Pakistan between 1975 and 1990. Bangladesh's role in South Asian international relations has tended to be overlooked and underestimated. The book reveals the complexity of the relationship between Bangladesh, India and Pakistan.

CBMs In India-Pakistan Relations Surender Singh, 2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu.

**Pakistan's Security and the India-US Strategic Partnership** Syed Shahid Hussain Bukhari, 2020-09-15 This book explores the relationship between the developing India-US strategic Partnership and Pakistan's security. It assesses India and the US's areas of cooperation to show that the partnership will bring drastic changes for India's military capabilities and modernization of its forces. The book shows that, in addition to enhancing India's domestic nuclear stockpiles through the nuclear cooperation agreement, collaboration in high-tech areas such as space and innovative technologies will enable India to acquire sophisticated delivery systems as well as surveillance capacity. The author argues that these advancements will enable India to destabilize the strategic balance in the region. The book also briefly explores the nuclear doctrines of India and Pakistan that provide an insight into the role of nuclear weapons in maintaining deterrence in the region. To understand the power dynamics caused by the strategic partnership and their impact on strategic stability in South Asia, the author utilizes the Balance of Power and Power Transition theories. A timely analysis of the India-US Strategic Partnership with a Pakistan angle, the book will be of interest to academics working in the fields of Asian security, Asian politics, especially South Asia, strategic studies, international relations, political science, nuclear non-proliferation, conflict studies, arms

control, and security studies.

**China-India Relations in the Contemporary World** Yang Lu, 2016-07-22 As two Asian giants and rising power, the interactions between India and China have global significance. This book analyses the multifaceted and multi-layered character of Sino-Indian relations since the beginning of the 21st century in a period marked by cooperation and competition. Positioned in a social constructivist framework that emphasizes mutual perceptions and socialization, the book draws analytical leverage from two core concepts - national identity and national interest - to form the basis of the research inquiry. The author argues that the dynamics of national identity and national interest play an important role in determining their relations and shows how and why in the current international structure, including a context of accelerated globalization, their national identities as rising power and emerging power coupled with national interest of economic development have defined and directed their international positions and foreign policy-making. A unique approach to analysing Sino-Indian relations, this book is of interest to academics in the fields of Asian Politics and International Relations.

Pakistan's Relations with India 1947-1966 Golam Wahed Choudhury, 1968

India & Pakistan Amitabh Mattoo, Happy Mon Jacob, 2007 India-Pakistan relations are at a historic juncture. This new found warmth, more than mere cold peace something that has traditionally characterised the relationship between the two countries has started manifesting in an urge to engage the other country with a positive frame of mind, explore the finer aspects of the other, and impelled an unprecedented popular momentum generated by the expectations of ordinary Indians and Pakistanis. The leadership in both India and Pakistan has not just accepted that they are willing to go beyond their stated positions, but have realised that the welfare of the other is essential to their own. The people of Jammu and Kashmir are also undergoing an attitudinal metamorphosis towards realism and the imperatives of peace, stability and prosperity. Still, much

remains unchanged. Mindsets, suspicion, terror tactics and political compulsions created by age-old nationalist rhetoric remain potential wild cards in the ongoing process towards positive peace. Thus, much of the challenging journey still lies ahead. This volume is an attempt to capture these diverse readings and views, analyse the prospects of peace and the potential wild cards, and present these before a discerning audience.

**Birth of Bangladesh as Canada Walks a Diplomatic Tightrope** Mustafa Chowdhury, 2024-11-14 This book focuses on the activities of the government of Canada, Canadian NGOs, Canadian media, and the people of Canada during the War of Liberation of Bangladesh in 1971. It outlines Canada's assistance to the victims of the military crackdown, as well as Canada's mediatory role. Having no strong ties of strategic interests in Pakistan or India, Canada had a sympathetic understanding of the two main parties involved - the military government of President Yahya Khan and the democratic rights of the people of Pakistan represented by Sheikh Mujibur Rahman, prime minister-designate. While the Nixon administration openly favoured Pakistan, Canada's foreign policy constrained Canada. The government was barraged with endless questions: Was the military take-over and crackdown a violation of the democratic rights of the people of Pakistan? Should the process of democracy be upheld under all circumstances? Should President Yahya continue his military reprisals in East Pakistan since the integrity of Pakistan was at stake? What was India's role? Was India dragged into the situation due to the influx of refugees? What role should Canada play as a senior member of the Commonwealth? There were no clear answers to these questions. The declaration of independence for Bangladesh by the rebel forces and the formation of the Provisional Government of Bangladesh in India had already created another new twist on the complex issue. Throughout the nine long months of the struggle for Bangladesh's independence, Canada maintained its "neutrality." Yet, it will be seen how Canada chose not to be a spectator but a player, doing her best while still adhering to its foreign policy of "non-intervention."

References.

**India-Pakistan Relations** M. P. Ajithkumar, 2006 This book makes a critical survey of the origin of Pakistan and its relations with India since 1947. A researcher with keen interest in the topic, the author has brought forth some home truths while assessing the India's dealings with Pakistan. He argues that it was the Indian rulers' lack of political farsightedness and pugnacious patriotism and Pakistan's internal turmoil that failed both the nations to cut their long-drawn ice. India, of course, had been victorious in all the battles to which Pakistan provoked her, but was defeated by Pakistan at the diplomatic

counters. The author heavily comes down upon the immaturity and intellectual poverty of those who ruled India during the preceding decades and wrote off the victory, which her military had won, at the counters of diplomacy and negotiation. He says: it was a national misfortune that the Indian politicians never reached the heights and intellectual level that the scientists and military officials of India attained in their respective fields with the result that she continued to be the customary loser. He argues that Indo-Pakistan issue could have been easily settled had the Indian rulers been endowed with patriotism and earnestness to solve it. Students of the history of India-Pakistan relations will find ample material in this work for their academic purpose. The book is narrative as well as critical.
