**Kristbjørg Eide O'Harra**

**The Espionage Filmography** Paul Mavis, 2015-06-08 From Sean Connery to Roy Rogers, from comedy to political satire, films that include espionage as a plot device run the gamut of actors and styles. More than just spy movies, espionage films have evolved over the history of cinema and American culture, from stereotypical foreign spy themes, to patriotic star features, to the Cold War plotlines of the sixties, and most recently to the sexy, slick films of the nineties. This filmography comprehensively catalogs movies involving elements of espionage. Each entry includes release date, running time, alternate titles, cast and crew, a brief synopsis, and commentary. An introduction analyzes the development of these films and their reflection of the changing culture that spawned them.

*A Nefarious Plot* Steve Deace, 2016-02-16 Republican vs. Democrat The Haves vs. the Have Nots Left vs. Right Us vs. Them We believe these are the divisions that are threatening to tear America apart. But what if the culprit isn't a political ideology or a class of people but a puppet master? He's been manipulating us for centuries—and now he's brought us to the brink of implosion. It would take a special kind of sinister to hatch such a nefarious plot against our civilization. Who, or what, would be capable of such a conspiracy? All there is to go on is the cryptic message: You'll never guess my name.

Women Scientists in Fifties Science Fiction Films Bonnie Noonan, 2015-02-18 In the 1950s, science was rapidly advancing, and so were scientific opportunities for women. Modern science fiction films reflected these simultaneous social developments. This book proposes that the social ideology of the 1950s, which was partly concerned with gender issues, saturated the B science fiction films of that era and inspired a new appreciation for the role of women in scientific advancements and other social achievements. Drawing on feminist literary and cultural theory, the author argues that the emergence of the modern American science fiction film in 1950 and the situation of post-World War II female scientists together created a film genre. That genre was explicitly amenable to exploring the tension between a woman's place in her home and her place in the work force, particularly in scientific fields. Early chapters provide a general introduction to the science fiction genre and specifically describe 1950s B science fiction films as they resonate with concerns proper to feminist theory. Subsequent chapters offer detailed, historically situated readings of 10 B science fiction films from the 1950s that feature women in science. The cinematic representations of female scientists are compared and contrasted with real female professionals of the time, illuminating the changing gender dynamics reflected in popular film in the 1950s. Films analyzed

include Rocketship X-M, It Came from Beneath the Sea, Them!, Tarantula, The Deadly Mantis, Beginning of the End, Kronos, Cat-Women of the Moon, World Without End, and Queen of Outer Space.

**Kang Woo-suk** Tong-jin O,2008 Kang Woo-suk has consistently performed the background role of a man of power in Korean film for the last ten years. He has made only 16 films since his debut as a director in 1988, but for the more than ten years since 1997 he has been in charge of investment, planning or production for no fewer than 120 films. In spite of this, Kang's name remains an unfamiliar one to the overseas film world. But his films have succeeded in capturing the rapidly changing Korean social and political situation of the last 20 years in a distinctive style; to be specific, a style of popular speech through satire and humor. Looking at Kang's films in sequence, one can grasp the twists and turns of the history of Korean capitalism. This book is a record of Kang's cinematic career over the past 20 years, and at the same time a document that demonstrates how Korean cinema possesses a fountain of diverse films and how considerable the potential commercial film is.
