

Tests De Intereses Profesionales

Anne Anastasi,Susana Urbina

Evaluación y tratamiento psicopedagógicos Ana Salvador Alcaide,1993-06-02 El presente libro está especialmente dirigido a psicólogos y pedagogos que se enfrentan con las tareas propias del Departamento de Orientación, en un centro educativo. Estas tareas son complejas, difíciles y de una gran responsabilidad, y van encaminadas a enriquecer el proceso educativo en todos sus ámbitos. Por tanto, de la forma en que se lleven a cabo y de su rigor y eficacia, depende en gran medida el que ese derecho esencial del alumno a la ayuda, que a lo largo de toda su escolaridad le debe proporcionar el Departamento de Orientación, se convierta en una realidad fructífera y bien lograda. En esta tercera edición se han incorporado las últimas novedades legislativas y se ha actualizado el capítulo dedicado a la ética profesional con los principios éticos básicos del orientador. También se ha hecho una revisión bibliográfica de la obra. Finalmente se aportan novedades importantes, en los Anexos, con la incorporación de dos técnicas muy actuales, la Batería IGF (1995) de Yuste y el ACRA (1994) de Román y Gallego sobre Estrategias de aprendizaje. La intención de la autora ha sido poner en manos de los responsables de la orientación escolar, casi un manual que exponga de manera clara y práctica dichas tareas, poniendo a contribución su ya larga experiencia en este ejercicio profesional.

Tests psicológicos Anne Anastasi,Susana Urbina,1998 Naturaleza y uso de los pruebas psicológicas - Antecedentes históricos de las pruebas actuales - Normas y significado de las puntuaciones de los tests - Confiabilidad - Validez: concepto básico - Validez: medición e interpretación - Análisis de reactivos - Pruebas individuales - Pruebas para poblaciones especiales - Pruebas colectivas - Naturaleza de la inteligencia - Consecuencias psicológicas en la evaluación de la habilidad - Inventarios autodescriptivos de personalidad - Medición de intereses y actitudes - Técnicas proyectivas - Otras técnicas de evaluación - Principales contextos del uso actual de las pruebas - Consideraciones éticas y sociales de la evaluación.

Evaluación psicológica en el área educativa Laura Edna Aragón,Arturo Silva,2009-09 Esta obra presenta formas prácticas y probadas con población mexicana para evaluar el desarrollo psicológico de niños y jóvenes (aptitudes para el aprendizaje, capacidades y orientaciones particulares), así como el ambiente educativo. Psicología y educación se ocupan del desarrollo de las personas desde ángulos complementarios, y la evaluación psicológica es la clave de toda intervención exitosa. De gran utilidad para psicólogos, pedagogos, maestros, terapeutas y profesionales de las ciencias sociales y humanas.--Provided Euroamericanapr.com.

Vademecum de pruebas psicopedagógicas Asensi Díaz, Jesús, Lázaro Martínez, Ángel, 1979 Serie de informaciones dirigidas a los orientadores escolares que, teniendo ya estos datos básicos, pueden profundizar para obtener resultados más ajustados.

Evaluación del personal Claude Levy-Leboyer, 1992 Los conocimientos sobre los procesos de evaluación del personal, así como los propios métodos se han visto caracterizados en los últimos años por verdaderos avances, aún muy escasamente conocidos y aplicados. El presente libro hace un balance de estos progresos y trata de aportar respuestas a las preguntas que se hacen los responsables de los servicios de personal sobre la mejor opción en cuanto a los métodos de evaluación; examina las ventajas e inconvenientes de las diferentes categorías de métodos disponibles, indica cómo mejorarlos y se ocupa de las reglas para su utilización. INDICE: Cómo elegir un método de evaluación. El análisis del trabajo, una etapa esencial. Calificando al personal: ¿cómo definir de manera concreta el éxito profesional? Cualidades métricas de los métodos de evaluación. La toma de decisiones y evaluación de su utilidad. Métodos de evaluación: El 'trío clásico': referencias, curriculum vitae y entrevistas. Aptitud cognitiva y aptitudes específicas. Los tests de personalidad y sus limitaciones. Pruebas profesionales y tests de situación.

El sexo y la clase social como determinantes de los intereses profesionales en el último curso de secundaria José Luis Gaviria Soto, 1993 Se estudia en este trabajo de qué forma difieren los intereses profesionales de los chicos y las chicas, y cómo esas diferencias varían en función de la clase social. Porque ya desde la escuela, y de forma solapada, se van desviando los intereses de las chicas de ciertas áreas del conocimiento, y eso lleva a la autoexclusión de muchas mujeres del ámbito de la ciencia y la técnica. El enfoque de esta investigación parte del hecho importante de la existencia de patrones distintos entre chicos y chicas a la hora de decidir acerca de su futuro profesional. Esos patrones tienen mucha trascendencia, ya que determinan no sólo la profesión futura de los individuos, sino también la posición que ocuparán en la escala social.

The Palgrave Biographical Encyclopedia of Psychology in Latin America Ana Maria Jacó-Vilela, Hugo Klappenbach, Rubén Ardila, 2023-05-19 This biographical encyclopedia will provide the first comprehensive reference work on leading scholars and professionals who have contributed to the development and institutionalization of psychology in Latin America. The figures biographed will include scholars who have made a significant theoretical contribution to the discipline, as well as, practitioners and those who have contributed to the institutionalization of psychology, through their work in scientific organisations, professional bodies and publications. All persons included are recognized authorities and either natives of, or long-term residents in the region. It will offer an invaluable reference point, in particular for scholars of the history of psychology, Latin American studies, the history of science, and global psychology; as well as for historians, psychologists and social scientists seeking international perspectives on the development of the discipline.
