BLACK and BLUE HEARTS Darlene Leonard,2020-11-08 **Annalee marries Ned with a need in her heart to rescue, a personal sense of unworthiness, and a desperate need to be loved.** Ned comes to his second marriage grieving for his young children who were kidnapped by a family member and abused before being placed in foster care. Annalee uses her background in legal work to negotiate the return of Ned's children to his custody. While working on her plans to adopt the children, Ned has a tragic accident leaving him with brain trauma. His emotional abuse escalates to outbursts of rage. Their home becomes a place of violence and terror. Although Annalee still loves Ned, she realizes the devastating effects of Ned's abuse on both her and the children. She feels trapped, terrified of the children being returned to foster care—or worse—returned to the abusive family member. Since the adoption is incomplete, Annalee has no legal right to take the children to safety, so she chooses to stay herself. While remaining married, Annalee and her children learn to break the cycle of abuse, reclaim their dignity, and hope for a future. This story is a testament to the overcoming power of faith, family, and forgiveness.

Counsel With Confidence Joel James,2018-10-01 When you were learning to ride a bicycle, the hardest part was the first few pedal strokes—those wobbly seconds before you built up enough momentum to maintain your balance. A generous push from your dad was just what you needed to avoid ending up in a heap of elbows, knees, handlebars, and spokes. Counseling is similar. Sometimes you need something to give you some momentum, something to give you the confidence that you're on the right track. If you've ever felt like that, this book is for you. Counsel With Confidence is a book to guide counselors and church leaders in being well informed and to help them bring about heart-based change in the lives of the people they counsel, through the right application of Scripture.

ADHD Does not Exist Richard Saul,2014-02-18 In this groundbreaking and controversial book, behavioral neurologist Dr. Richard Saul draws on five decades of experience treating thousands of patients labeled with Attention Deficit and Hyperactivity Disorder—one of the fastest growing and widely diagnosed conditions today—to argue that ADHD is actually a cluster of symptoms stemming from over 20 other conditions and disorders. According to recent data from the Centers for Disease Control and Prevention, an estimated 6.4 million children between the ages of four and seventeen have been diagnosed with attention deficit hyperactivity disorder. While many skeptics believe that ADHD is a fabrication of drug

companies and the medical establishment, the symptoms of attention-deficit and hyperactivity are all too real for millions of individuals who often cannot function without treatment. If ADHD does not exist, then what is causing these debilitating symptoms? Over the course of half a century, physician Richard Saul has worked with thousands of patients demonstrating symptoms of ADHD. Based on his experience, he offers a shocking conclusion: ADHD is not a condition on its own, but rather a symptom complex caused by over twenty separate conditions—from poor eyesight and giftedness to bipolar disorder and depression—each requiring its own specific treatment. Drawing on in-depth scientific research and real-life stories from his numerous patients, *ADHD Does not Exist* synthesizes Dr. Saul's findings, and offers and clear advice for everyone seeking answers.
