The Undergraduate's Companion to African Writers and Their Web Sites Miriam E. Conteh-Morgan, 2005-10-30

Now a firmly established part of world literature course offerings in many general education curricula, African literature is no longer housed exclusively with African Studies programs, and is often studied in English, French, Portuguese, Women's Studies, and Comparative Studies departments. This book helps fill the great need for research materials on this topic, presenting the best resources available for 300 African writers. These writers have been carefully selected to include both well-known writers and those less commonly studied yet highly influential. They are drawn from both the Sub-Sahara and the Maghreb, the major geographical regions of Africa. The study of Africa was introduced into the curriculum of institutions of higher learning in the United States in the 1960s, when the Black Consciousness movement in the United States and the Cold War and decolonization movements in Africa created a need for the systematic study of other regions of the world. Between 1986 and 1991, three Africans won Nobel literature prizes: Soyinka, Mahfouz, and Gordimer, and the visibility of African writers increased. They are now a firmly established part of world literature courses in many general education curricula throughout North America. African Writers is meant to serve as a resource for introductory material on 300 writers from 39 countries. These writers were selected on the basis on two criteria: that there is material on them in an easily available reference work; and that there is some information of research value on free Web sites. Each writer is from the late-19th or 20th century, with the notable exception of Olaudah Equiano, an 18th-century African whose slave narrative is generally considered the first work of African literature. All entries are annotated.

From Yahweh to Yahoo! Doug Underwood, 2010-10-01 Presenting religion as journalism's silent partner, From Yahweh to Yahoo! provides a fresh and surprising view of the religious impulses at work in contemporary newsrooms. Focusing on how the history of religion in the United States entwines with the growth of the media, Doug Underwood argues that American journalists draw from the nation's moral and religious heritage and operate, in important ways, as personifications of the old religious virtues. Underwood traces religion's influence on mass communication from the biblical prophets to the Protestant Reformation, from the muckraker and Social Gospel campaigns of the late nineteenth and early twentieth centuries to the modern age of mass media. While forces have pushed journalists away from identifying themselves with religion, they still approach such secular topics as science, technology, and psychology in reverential ways. Underwood thoughtful analysis

covers the press's formulaic coverage of spiritual experience, its failure to cover new and non-Christian religions in America, and the complicity of the mainstream media in launching the religious broadcasting movement.

Kierkegaard's Influence on the Social Sciences Jon Bartley Stewart, 2011 Kierkegaard has long been known as a philosopher and theologian, but his contributions to psychology, anthropology and sociology have also made an important impact on these fields. The articles featured in the present volume explore the reception of Kierkegaard's thought in the social sciences. Of these fields Kierkegaard is perhaps best known in psychology, where The Concept of Anxiety and The Sickness unto Death have been the two most influential texts. With regard to the field of sociology, social criticism, or social theory, Kierkegaard's Literary Review of Two Ages has also been regarded as offering valuable insights about some important dynamics of modern society.

Solitude and its Ambiguities in Modernist Fiction E. Engelberg, 2016-04-30 In this study of solitude in high modernist writing, Edward Engelberg explores the ways in which solitude functions thematically to shape meaning in literary works, as well as what solitude as a condition has contributed to the making of a trope. Selected novels are analyzed for the ambiguities that solitude injects into their meanings. The freedom of solitude also becomes a burden from which the protagonists seek liberation. Although such ambiguities about solitude exist from the Bible and the Ancients through the centuries following, they change within the context of time. The story of solitude in the twentieth century moves from the self's removal from society and retreat into nature to an extra-social position within which the self confronts itself. A chapter

is devoted to the synoptic analysis of solitude in the West, with emphasis on the Renaissance to the twentieth century, and another chapter analyzes the ambiguities that set the stage for modernism: Defoe's Robinson Crusoe. Selected works by Woolf, Mann, Camus, Sartre, and Beckett highlight particular modernist issues of solitude and how their authors sought to resolve them.

Volume 13: Kierkegaard's Influence on the Social Sciences Jon Stewart, 2016-12-05 Kierkegaard has long been known as a philosopher and theologian, but his contributions to psychology, anthropology and sociology have also made an important impact on these fields. In many of the works of his complex authorship, Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively. The articles featured in the present volume explore the reception of Kierkegaard's thought in the social sciences. Of these fields Kierkegaard is perhaps best known in psychology, where *The Concept of Anxiety* and *The Sickness unto Death* have been the two most influential texts. With regard to the field of sociology, social criticism, or social theory, Kierkegaard's *Literary Review of Two Ages* has also been regarded as offering valuable insights about some important dynamics of modern society..

Critical Essays on Albert Camus Bettina Liebowitz Knapp, 1988 Critical essays about the life and work of Albert Camus.

Albert Camus in His Fiction: from Ambivalence to Ambiguity Thorne Sherwood (Jr.),1971

Colonial and Anti-Colonial Discourses Ena C. Vulor,2000-12-20 Colonial and Anti-Colonial Discourses underscores the relationship between literature, history and politics. The comparative historical-cultural analysis of the works of Albert Camus, Mouloud Mammeri, Mouloud Feraoun, and Mohammed Dib provide not only interesting perspective from which to re-evaluate Camus' fiction, but also an extremely valuable insight into the colonial history and politics of Algeria. The author examines the ideological parameters - colonial history, French assimilationist practices, politics of citizenship, etc. - that provide a generative context for the birth of Algerian Literature in French. The work's strength and contribution to scholarship, particularly, to the growing field of post-colonial cultural critique, lie in its attempt to read the fictions of Camus from the perspective of North African literary tradition as opposed to a French literary tradition. It brings his writings into a mutual dialogic interrogation with those of Indigenous North African writers, whose fictions articulate a state of cultural heterogeneity at the very moment when they confront the problem of Western - particularly French - hegemony. This book is of interest to scholars and graduate students of French literature, Francophone African literature, and Cultural Studies.

Tribe Of Mentors Timothy Ferriss,2017-11-21 Tim Ferriss, the #1 New York Times best-selling author of The 4-Hour Workweek, shares the ultimate choose-your-own-adventure book—a compilation of tools, tactics, and habits from 130+ of the world's top performers. From iconic entrepreneurs to elite athletes, from artists to billionaire investors, their short profiles can help you answer life's most challenging questions, achieve extraordinary results, and transform your life. From the author: In 2017, several of my close friends died in rapid succession. It was a very hard year, as it was for many people. It was also a stark reminder that time is our scarcest, non-renewable resource. With a renewed sense of urgency, I began asking myself many questions: Were my goals my own, or simply what I thought I should want? How much of life had I missed from underplanning or overplanning? How could I be kinder to myself? How could I better say “no” to the trivial many to better say “yes” to the critical few? How could I best reassess my priorities and my purpose in this world? To find answers, I reached out to the most impressive world-class performers in the world, ranging from wunderkinds in their 20s to icons in their 70s and 80s. No stone was left unturned. This book contains their answers—practical and tactical advice from mentors who have found solutions. Whether you want to 10x your results, get unstuck, or reinvent yourself, someone else has traveled a similar path and taken notes. This book, Tribe of Mentors, includes many of the people I grew up viewing as idols or demi-gods. Less than 10% have been on my podcast (The Tim Ferriss Show, more than 200 million downloads), making this a brand-new playbook of playbooks. No matter your challenge or opportunity, something in these pages can help. Among other things, you will learn: • More than 50 morning routines—both for the early riser and those who struggle to get out of bed. •

How TED curator Chris Anderson realized that the best way to get things done is to let go. • The best purchases of \$100 or less (you'll never have to think about the right gift again). • How to overcome failure and bounce back towards success. • Why Humans of New York creator Brandon Stanton believes that the best art will always be the riskiest. • How to meditate and be more mindful (and not just for those that find it easy). • Why tennis champion Maria Sharapova believe that "losing makes you think in ways victories can't." • How to truly achieve work-life balance (and why most people tell you it isn't realistic). • How billionaire Facebook co-founder Dustin Moskovitz transformed the way he engages with difficult situations to reduce suffering. • Ways to thrive (and survive) the overwhelming amount of information you process every day. • How to achieve clarity on your purpose and assess your priorities. • And much more. This reference book, which I wrote for myself, has already changed my life. I certainly hope the same for you. I wish you luck as you forge your own path. All the best, Tim Ferriss

Camus's L'Etranger: Fifty Years on Adele King, 1992-04-28 These essays on L'Etranger celebrate its continuing influence throughout the world. Included are essays by prominent French and English-language authors for whom the novel has been an influential expression of contemporary sensibility. Comparative studies show Camus's relation to the New Novel, to Greene and Orwell, to Jules Roy, and to Sartre.

One Million Words of Book Notes, 1958-1993 Richard Kostelanetz, 1996 Kostelanetz excels, for instance, at astutely cynical debunkings of many of the 'radical chic' culture heroes of the 60s. . . . He can be scathingly funny as well deflating both the over-rated trendy avant-gardists and the 'New York Intellectual' elders who tyrannized the time. . . . As a meticulously reconstructed record of literary coming of age in a particularly propitious cultural moment, 'One Million Words' has carved out a unique place in the annals of literary autobiography.
