Theism: the Philadelphia Theory Kurt Bakley, 2020-08-17 Did creation happen in the beginning by a homosexual union? Does the sun and the whole Universe run on the principle of homosexuality? Does the Bible tell of God and angels in heaven having dresses and bras because they are transsexuals and a hermaphrodite? Are the 144,000 witnesses of God in Revelation chapters 7 and 14 homosexuals? Is part of God literally a dunghill? Does part of God speak profanity? After the end of this world will we all go to live on a new earth with the New Jerusalem filled with homosexuals and lawless, and outside its gates are the religious? Did God make a new covenant in these last days that allows homosexuals and all people into His kingdom forever? Will the Lord God at that time be there as a Hermaphrodite (she/male) as the joining of the two (good and evil) so all may live forever in peace and joy, which the Bible predicted as the wedding of Christ and His bride? Were all the wisdom and teaching and prophecies of the end time antichrist and evil reversed? That in the end times the real evil is religion and that at the end the New Jerusalem is free and lawless? Was the main part of satan all along that of a religious spirit and was always testing and not tempting? Were words given to explain God have the meaning that He is a God for all races, cultures, ways of life and religions and even the non-religious? Are Gentiles children of devils? Are we all Jewish? For all the details read the whole book: Theism The Philadelphia Theory: One word that answers all things for all to know. This book was finished by April 13, 2018 A.D.

The Experiment at Philadelphia: Kurt B. Bakley, 2015-04-21 The Philadelphia Experiment was Einsteins experiment in which he had not only discovered, in 1943, the way to make things invisible and transport them at great speeds, but also positively proven scientifically, physically and spiritually that God Almighty exists! He had literally discovered God! That question, Is there a God?, thats been going through peoples minds for so long, discussed on the street corner, talked about on the porch on a hot summers night, is now a proven fact

Progress in Photosynthesis Research J. Biggins, 2013-11-21 These Proceedings comprise the majority of the scientific contributions that were presented at the VIIth International Congress on Photosynthesis. The Congress was held August 10-15 1986 in Providence, Rhode Island, USA on the campus of Brown University, and was the first in the series to be held on the North American continent. Despite the greater average travel distances involved the Congress was attended by over 1000 active participants of whom 25% were registered students. This was gratifying and indicated that photosynthesis will

be well served by excellent young scientists in the future. As was the case for the VIth International Congress held in Brussels, articles for these Proceedings were delivered camera ready to expedite rapid publication. In editing the volumes it was interesting to reflect on the impact that the recent advances in structure and molecular biology had in this Congress. It is clear that cognizance of structure and molecular genetics will be even more necessary in the design of experiments and the direction of future research.

Bone Marion Woodman,2001-12-01 On November 7, 1993, Marion Woodman was diagnosed with uterine cancer. Here, in journal form, is the story of her illness, her healing process, and her acceptance of life and death. Breathtakingly honest about the factors she feels contributed to her cancer, Woodman also explains how she drew upon every resource-physical and spiritual-available to her to come to terms with her illness. Dreams and imagery, self-reflection and body work, and both traditional and alternative medicine play distinctive roles in Woodman's recovery. Her personal treasury of art, photographs, and quotations-from Dickinson to Blake to Rumi-embellish this unique chronicle of a very personal journey toward transformation.
