Baffling Tourist Attractions Marcus Blackwell, AI, 2025-02-12 Baffling Tourist Attractions explores the world of unusual tourism, diving into why people are drawn to bizarre and quirky destinations. The book investigates attractions that defy traditional expectations, examining the cultural, historical, and psychological factors that make them so captivating. From giant balls of twine to museums of broken relationships, it seeks to understand our fascination with the odd and unexpected. The book is structured to explore the historical origins of bizarre tourism, tracing how travelers have long sought out unusual sights. It delves into the psychology behind these attractions, examining how they fulfill our desire for novelty and authentic experiences. It also considers the economic and social impact of these attractions on local communities, highlighting their role in revitalizing economies and promoting cultural preservation. Ultimately, the book argues that these baffling attractions serve a vital function by reminding us that history includes the strange and unexpected. It adopts a narrative non-fiction style, balancing scholarly research with engaging storytelling.

The Routledge Handbook of Museums, Heritage, and Death Trish Biers, Katie Stringer Clary, 2023-07-26 This book provides a comprehensive examination of death, dying, and human remains in museums and heritage sites around the world. Presenting a diverse range of contributions from scholars, practitioners, and artists, the book reminds us that death and the dead body are omnipresent in museum and heritage spaces. Chapters appraise collection practices and their historical context, present global perspectives and potential resolutions, and suggest how death and dying should be presented to the public. Acknowledging that professionals in the galleries, libraries, archives, and museums (GLAM) fields are engaging in vital discussions about repatriation and anti-colonialist narratives, the book includes reflections on a variety of deathscapes that are at the forefront of the debate. Taking a multivocal approach, the handbook provides a foundation for debate as well as a reference for how the dead are treated within the public arena. Most important, perhaps, the book highlights best practices and calls for more ethical frameworks and strategies for collaboration, particularly with descendant communities. The Routledge Handbook of Museums, Heritage, and Death will be useful to all individuals working with, studying, and interested in curation and exhibition at museums and heritage sites around the world. It will be of particular interest to those

working in the fields of heritage, museum studies, death studies, archaeology, anthropology, sociology, and history.

Atlas Obscura, 2nd Edition Joshua Foer, Ella Morton, Dylan Thuras, Atlas Obscura, 2019-10-15 Discover wonder. "A wanderlust-whetting cabinet of curiosities on paper."— New York Times Inspiring equal parts wonder and wanderlust, Atlas Obscura is a phenomenon of a travel book that shot to the top of bestseller lists when it was first published and changed the way we think about the world, expanding our sense of how strange and marvelous it really is. This second edition takes readers to even more curious and unusual destinations, with more than 100 new places, dozens and dozens of new photographs, and two very special features: twelve city guides, covering Berlin, Budapest, Buenos Aires, Cairo, London, Los Angeles, Mexico City, Moscow, New York City, Paris, Shanghai, and Tokyo. Plus a foldout map with a dream itinerary for the ultimate around-the-world road trip. More a cabinet of curiosities than traditional guidebook, Atlas Obscura revels in the unexpected, the overlooked, the bizarre, and the mysterious. Here are natural wonders, like the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa so large it has a pub inside where 15 people can sit and drink comfortably. Architectural marvels, including the M. C. Escher-like stepwells in India. Mind-boggling events, like the Baby-Jumping Festival in Spain—and no, it's not the babies doing the jumping, but masked men dressed as devils who vault over rows of squirming infants. Every page gets to the very core of why humans want to travel in the first place: to be delighted and disoriented, uprooted from the familiar and amazed by the new. With its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, and new city guides, it is a book you can open anywhere and be transported. But proceed with caution: It's almost impossible not to turn to the next entry, and the next, and the next.

Atlas Obscura Joshua Foer, Dylan Thuras, Ella Morton, 2016-09-20 It's time to get off the beaten path. Inspiring equal parts wonder and wanderlust, Atlas Obscura celebrates over 700 of the strangest and most curious places in the world. Talk about a bucket list: here are natural wonders—the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa that's so large it has a pub inside where 15 people can drink comfortably. Architectural marvels, including the M.C. Escher-like stepwells in India. Mind-boggling events, like the Baby Jumping Festival in Spain, where men dressed as devils literally vault over rows of squirming infants. Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, ATLAS OBSCURA revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer. Anyone can be a tourist. ATLAS OBSCURA is for the explorer.

Convoi Exceptionnel: A Mongol Rally Adventure Alastair Bruce Cameron,2019-03-01 A group of scruffy lunatics and their under powered but valiant vehicles navigate ⅓ of the globe, attempting a journey conceived by people who have heard of the words 'stupid' and 'dangerous' but haven't really understood their meaning. Setting off from various points across the globe, Teams: Away From Keyboard, Don't Smell My Shoes, Two Fake Yanks and a Scot, Rally McRally Face, Mini Adventurers and Cunning Stunts unite to create Convoi Exceptionnel Could a Mongol Rally Convoy be better named? The convoy was largely formed in Calais UK where the aforementioned lunatics easily spotted each other via their glorious car decorations which included smelly old shoes and garden gnomes among others. Little did the people in this blossoming group know of the horrors and wonders, the friendships and hardships that lay before them as they attempted to drive through 19 countries, over 10,000 miles to Mongolia. The journey was long and perilous but they were Exceptionnel.

Curiosa Barton Lidice Benes,2002-10-23 Benes imbues mundane objects with the mystical power of holy relics. This collection of his objects is provocative, disturbing and amusing. 110 illustrations.

Mystic Bones Mark C. Taylor,2007 The desert has long been a theme in Mark C. Taylor's work, from his inquiries into the religious significance of Las Vegas to his writings on earthworks artist Michael Heizer. At once haunted by absence and loss, the desert, for Taylor, is a place of exile and wandering, of temptation and tribulation. Bones, in turn, speak to his abiding interest in remnants, ruins, ritual, and immanence. Taylor combines his fascination in the detritus of the desert and its philosophical significance with his work in photography in *Mystic Bones*. A collection of remarkably elegant close-up images of weathered bones--remains of cattle, elk, and deer skeletons gathered from the desert of the American West--*Mystic Bones* pairs each photograph with a philosophical aphorism. These images are buttressed by a major essay, *Rubbings of Reality*, in which Taylor explores the use of bones in the religious rituals of native inhabitants of the Western desert and, more broadly, the appearance of bones in myth and religious reality. Meditating on the way in which bones paradoxically embody both the personal and the impersonal--at one time they are our very substance, but eventually they become our last remnants, anonymous, memorializing oblivion--Taylor here suggests ways in which natural processes can be thought of as art, and bones as art objects. Bones, Taylor writes, draw us elsewhere. To follow their traces beyond the edge of the human is to wander into ageless times and open spaces where everything familiar becomes strange. By revealing beauty hidden in the most unexpected places, these haunting images refigure death in a way that allows life to be seen anew. A bold new work from a respected philosopher of religion, *Mystic Bones* is Taylor's his most personal statement of after-God theology.

Baedeker's Czech Republic, Slovak Republic ,1994

The Universal Baroque Peter Davidson,2007 Drawing on sources in six languages and touching on the visual arts, architecture, music, and literature, this study frees the word baroque from being a term of periodization into a descriptor for a network of ideas, words, plants, arts, and energies. This new mapping offers a hybridity of the arts of Ibero-America as a way of re-examining the arts of the British Isles and Ireland. It challenges the modern idea of capitals of culture, whose international culture fused the local and the international to the degree that remote settlements--in Peru and Bolivia, a castle in Aberdeenshire, or an Episcopal Palace in what is now Serbia--functioned as cultural centers as important as Madrid or London.
