An Archaeological Evolution Stanley South,2006-10-21 Stanley South has been a leading figure not only in historical archaeology but also in anthropological archaeology. His work (both past and present) has put him in the forefront of monumental changes in American archaeology in the last 40 years. His personal perseverance in field archaeology has also been an inspiration to new and burgeoning archaeologists and anthropologists. An Archaeological Evolution is a personal recounting of his life, played out among some of the most important debates and movements in archaeology starting in the 1960s up to the 21st century. This seminal volume will be of interest to archaeologists (both professional and academic), anthropologists, historians, and conservators in or studying the United States, but also wherever archaeology is taught and practiced.

Richard Marquis Objects Tina Oldknow,1997 Richard Marquis has had an extraordinary influence on the development of contemporary studio glass in America and around the world. Studying at the University of California at Berkeley during the 1960s, he explored ceramics and was introduced to glassblowing. Unsatisfied by the limited techniques practiced in American studio glass at that time, Marquis went to the island of Murano, near Venice, to observe and work with the masters of a glassblowing tradition acknowledged as the best in the world. Freely sharing the techniques he learned in Venice, Marquis has demonstrated and taught throughout the U.S., Europe, Japan, Australia, and New Zealand. The effect of Venetian glassblowing techniques on American studio glass enabled glass artists to expand their technical vocabularies and, combined with new and experimental approaches, led to the redefinition of glass as an artistic medium. As an artist, Marquis is admired for his sophisticated understanding of color and form as much as for his humor and willingness to experiment. As a glassblower, he has influenced an entire generation of artists working in glass who aspire to his technical mastery and the originality of his voice. He lives on an island in Puget Sound.
