The False Teachings of the Man from Planet Rizq Hussain K. Muhammad-Sunjata,2015-09-18 THIS book entails information from the book entitled man from planet Rizq. I have taken the time and energy, and meticulously challenged and, debunked this mans information. I have literally taken just about every page that I though was worth challenging and extracted the lies and exposed them to be the best of my ability. The scope of his work was not only about him and his community, but also about freeing the minds of those who came in contact or will come in contact with these pathogenic teachings that seem to have premeated the nation. I also take the time to do Dawah (propagate Islam) towards the end of the book by dispelling myths like did the Vatican create Islam?, The Moon god Myth, did the prophet Muhammad really exist? I also show and prove diligently that this man is not from planet Rizq, He is not from the Sudan, or apart of the Al-Mahdi family. In this work Inshallah (God Willing) the reader will see for themselves the fraud unveiled and that his teachings are a hodgepodge of Sumerian, Akkadian, Babylonian and Hindu extractions wrapped with a miniscule amount of truth. Inshallah (God Willing) TRUTH HAS COME AND FALSEHOOD MUST VANISH.

Islam, Science Fiction and Extraterrestrial Life Jörg Matthias Determann,2020-09-17 The Muslim world is not commonly associated with science fiction. Religion and repression have often been blamed for a perceived lack of creativity, imagination and future-oriented thought. However, even the most authoritarian Muslim-majority countries have produced highly imaginative accounts on one of the frontiers of knowledge: astrobiology, or the study of life in the universe. This book argues that the Islamic tradition has been generally supportive of conceptions of extra-terrestrial life, and in this engaging account, Jörg Matthias Determann provides a survey of Arabic, Bengali, Malay, Persian, Turkish, and Urdu texts and films, to show

how scientists and artists in and from Muslim-majority countries have been at the forefront of the exciting search. Determann takes us to little-known dimensions of Muslim culture and religion, such as wildly popular adaptations of Star Wars and mysterious movements centred on UFOs. Repression is shown to have helped science fiction more than hurt it, with censorship encouraging authors to disguise criticism of contemporary politics by setting plots in future times and on distant planets. The book will be insightful for anyone looking to explore the science, culture and politics of the Muslim world and asks what the discovery of extra-terrestrial life would mean for one of the greatest faiths.

The Nuwaubian Nation Susan J. Palmer, 2010 Presenting fresh and important insights into racist spirituality and the social control of unconventional religions in America, *The Nuwaubian Nation* follows the extraordinary career of Dwight York, who in his teens started out in a New York street gang, but converted to Islam in prison. Emerging as a Black messiah, York proceeded to break the Paleman's spell of Kingu and to guide his people through a series of racial/religious identities that demanded dramatic changes in costume, gender roles and lifestyle. Referring to theories in the sociology of deviance and media studies, the author tracks the escalating hostilities against the group that climaxed in a Waco-style FBI raid on the Nuwaubian compound in 2002.

The Usual Saga Christopher Henry, 2013-12 Jase is doing a gym work out and as he comes to a finish a couple of guys ask him about his portable Lap top computer. It is immediately clear to Jase that these guys are up to something. Jase is not big on strangers although he will hear them out. At the same time he is very vigilant in doing so.

Black Zion Yvonne Chireau, Nathaniel Deutsch, 1999-12-16 This volume explores the myriad ways in which African American religions have encountered Jewish traditions, beliefs, and spaces. In contrast to previous works, which have typically focused on the social and political relationship between blacks and Jews, *Black Zion* places religion at the center of its discussion, thereby illuminating a critically important but little explored aspect of black-Jewish relations in America. The essays gathered here examine groups such as the Nation of Islam and the Hebrew Israelites, individuals such as Martin Luther King, Jr., and Abraham Joshua Heschel, and topics such as the transformation of synagogue space into African American churches and the symbolic role of the Jew in the Haitian religious imagination. This collection draws on sacred texts, interviews, and ethnographic and archival research to discuss the shared elements in black and Jewish sacred life, as well as the development and elaboration of new religious identities by African Americans. Featuring contributions from a group of renowned scholars and writers, this groundbreaking volume reveals a great deal about both African American religions and the meaning of Judaism in the contemporary world. It is essential reading for students of religion, history, cultural studies, black studies, and American studies.

Why Was Man Created? Sam Oputa, 2016-10-11 In the beginning, God created the earth, and He looked upon it in His cosmic loneliness. And God said, Let Us make living creatures out of mud, so the mud can see what We have done. And God

created every living creature that now moveth, and one was man. Mud as man alone could speak. God leaned close to mud as man sat up, looked around, and spoke. Man blinked. What is the purpose of all this? he asked politely. Everything must have a purpose? asked God. Certainly, said man. Then I leave it to you to think of one for all this, said God. And He went away. - Kurt Vonnegut, Cat's Cradle Most people must have at one point or another asked themselves the question, why am I here? One thing is certain--we were not here from the beginning. Some have asked questions like What is life all about? Many others have wondered What is the nature of life? and What is the nature of reality?. These questions can be a passing thought that launches into a full-on existential exploration. What are we anyway? We are born. We grow into adults and before you can bat an eyelid, you are in the old people's home waiting to die. How fulfilling is that? Do you now wonder why some people ask the question What are we here for anyway? Some great people have asked these questions. What is my purpose? It is a difficult and profound question, and a common conclusion is that we were created for God's glory. That may be a religious truth but is it logical? There must be a far more specific reason for our creation. In Sam Oputa's Why Was Man Created? he explores this question from many angles--spirituality, religion, psychology, philosophy, and other sciences--but mostly he draws from the Holy Books, which contain a wealth of scientific evidence. The result of years of research and soul-searching Why Was Man Created? is a fascinating and sometimes controversial study of the age-old question of creation and evolution. The answers to these questions are not easy to resolve but the answers are out there.

Jesus Mack Antonio Glover,2025-04-21 This Book Is Basically about Uncovering The Lies that's been spread Worldwide about The Messiah Jesus. And instead of being TAUGHT The Gospel OF Jesus & what JESUS said, we've been given The Gospel ABOUT Jesus & what PAUL said, which is none other than what's called, The Pauline Doctrine. In Revelations 2:4, JESUS said to The Church Nevertheless, I have somewhat against thee, because you have gotten AWAY, from My 1st works & my 1st Love, KNOW from where you have fallen (That Pauline Doctrine) REPENT of THAT, & go BACK to MY 1st works & My 1st Love, which IS, The Kingdom Is WITHIN, (Meditation to reconnect to The SOURCE of your own Being) & The Science of Creation, by what you THINK, what you SAY & what you DO. He was Teaching Us that WE, are The CREATORS of Our Lives so from now on, be CAREFUL of what YOU are Creating. Now GO, & Sin no more.
