Proclus: Commentary on Plato's Republic: Volume 1 ,2018-08-30 The commentary on Plato's Republic by Proclus (d. 485 CE), which takes the form of a series of essays, is the only sustained treatment of the dialogue to survive from antiquity. This three-volume edition presents the first complete English translation of Proclus' text, together with a general introduction that argues for the unity of Proclus' Commentary and orients the reader to the use that the Neoplatonists made of Plato's Republic in their educational program. Each volume is completed by a Greek word index and an English-Greek glossary that will help non-specialists to track the occurrence of key terms throughout the translated text. The first volume of the edition presents Proclus' essays on the point and purpose of Plato's dialogue, the arguments against Thrasymachus in Book I, the rules for correct poetic depictions of the divine, a series of problems about the status of poetry across all Plato's works, and finally an essay arguing for the fundamental agreement of Plato's philosophy with the divine wisdom of Homer which is, in Proclus' view, allegorically communicated through his poems.

Augustine's Confessions Robert Hunter Craig,2020-10-29 Augustine's Confessions: Conversion and Consciousness argues two original positions concerning the structure and meaning of the Confessions by Augustine. The structure is found to be a tool used by Augustine in his earlier pre-Confessions writings in which he uses the Allegory of the Cave in book VII of the Republic by Plato to both describe human consciousness and as a structural framework for his own life story. As with Plato's allegory, Augustine then uses Books X-XIII to do, what the author calls, Scriptural Philosophical analysis of the allegorical prayer previously given. The author shows that the Confessions is really an allegorical quasi-prayer that shows Augustine's state of mind or disposition through space/time—and at the same time uses different personas, schools of thought and metaphysical constructs to show the inadequacy of Plato's consciousness model of the cave to truly describe human

rationation within consciousness in its totality—Synchronic-Synthetic-Triplex (SST) or body, mind, God-Will substance. Instead, Augustine demonstrates the superiority of the Christian conversion to that of the Platonic as described both by Platonic books and the books of the Platonists. The Christian conversion is based on the incarnate Wisdom of Christ Jesus within the Cave/World.

Truth Matters: Theory and Practice in Psychoanalysis Shlomit Yadlin-Gadot,2016-03-21 In Truth Matters: Theory and Practice in Psychoanalysis, Shlomit Yadlin-Gadot offers an original construal of subjectivity as evolving from dynamic tensions between conflicting truths that inhabit and structure the psyche. The clinical endeavour is articulated in terms of unveiling these truths and allowing the multi-faceted nature of human experience to emerge. Yadlin-Gadot's notion of truth axes combines philosophical investigation with an in-depth inquiry of psychoanalytic theory as it relates these truths to basic human needs and developmental challenges, alternating self-states and unconscious processes. Detailed clinical vignettes illustrate these insights and enrich psychoanalytic practice with innovative technique. "This is a brilliant and original work that addresses a much-neglected issue in psychoanalytic thinking, the fundamental role of truth in psychoanalytic theory and practice. The author accomplishes this goal with panache and originality, in a style of exposition that is both accessible and illuminating. This book represents a major achievement in the annals of psychoanalytic scholarship." Michael Guy Thompson, Author of The Death of Desire (Routledge) and The Truth about Freud's Technique (New York University Press).
