The Six Conversations Heather Holleman, 2022-10-04 It's time for a conversation revival! Conversation is getting harder. We're feeling more isolated. Loneliness is becoming an epidemic. The Six Conversations reflects one of the deepest passions of Dr. Heather Holleman's heart: to connect people in loving community. How can I foster meaningful connection with others? Why doesn't anyone ever ask meaningful questions? If my personal happiness depends upon having warm relationships—like all the research shows—how can I become a better conversationalist and create connection? Heather's work demonstrates how we can develop authentic community by changing our relational mindsets to believe the best about others, to express concern about their lives, and to share our own. Heather shows us how to embrace the Four Mindsets of a Loving Conversation and the Three Fresh Goals for Conversation. Readers will be equipped with effective questions, self-assessments, and action steps to immediately implement in any situation—both personally and professionally.

Logos Steve Madison, Wouldn't you want a religion that every logician, mathematician, philosopher, and scientist on earth could embrace, a religion fully consistent with all the points made by Kurt Gödel when he listed the 14 key religious principles he accepted? That religion already exists. It's called ontological mathematics, predicated on the principle of sufficient reason and Occam's razor, and constitutes an a priori, rationalist, analytic, deductive religion, metaphysics and physics. Mathematics explains all. Nobel laureate Paul Dirac said, God is a mathematician of a very high order and He used advanced mathematics in constructing the universe. In fact, God simply is mathematics! God is not a non-mathematical Being who sometimes does mathematics. God is a mathematical Being who does nothing but mathematics, hence IS nothing but mathematics. God is one united mathematical Mind at zero entropy, and countless competing, autonomous mathematical minds at non-zero entropy. It is this capacity of God to be both one and many, united and divided, non-entropic and entropic, cooperative and competitive, that gives our reality the characteristics it has. Galileo said, Nature is written in that great book which ever is before our eyes - I mean the universe - but we cannot understand it if we do not first learn the language and grasp the symbols in which it is written. The book is written in mathematical language, and the symbols are triangles, circles and other geometrical figures, without whose help it is impossible to comprehend a single word of it; without which one wanders in vain through a dark labyrinth. Nature is written in the God language of mathematics because God is mathematics. Bertrand Russell said, Mathematics takes us still further from what is human, into the region of absolute necessity, to which not only the world, but every possible world, must conform. God must conform to mathematics too. Therefore, God is mathematics. Religion is true. Thanks to mathematics. The time has come - for a universal rational and logical Logos religion, which at last gets rid of faith, mysticism, superstition, revelation and Mythos. We don't need priests, prophets, gurus and messiahs. We need geniuses. We need the world's top logicians and rationalists. We need the very best mathematicians, calculating the answer to the Ultimate Question of life, the universe, and everything.

Hive Mind Dreaming Dr. Thomas Stark, John Lennon said, A dream you dream alone is only a dream. A dream you dream together is reality. OK, you want a whole new way of looking at reality. Nothing is more extraordinary than the Hive Mind. According to the theory of the Hive Mind, existence is made of nothing but minds, all packed together in the Cosmic Hive. All the minds do is dream, individually and collectively, and in doing so they generate the world we all experience. The fundamental activity of the mind is dreaming. Come inside the hive and discover how reality works.

Let's Do Life David Conellias, 2015-01-23 This book contains practical principles that serve to empower, motivate, inform, and encourage the reader. It requires the reader to keep an open mind because of the nature of the dynamic content. The book touches on a range of topics which include the following: The power of the mind and words: How our thoughts and the words that we speak help frame our world, either negatively or positively. Health and beauty: Benefits of eating healthy, exercise, and rest. When it comes to beauty, how different oils help look after and nourish your skin. Management skills: Practical ways of applying management skills such as time management, finance management, and resource management. Etiquette and communication skills: Etiquette is an art that seems to be drifting away in society today. People seem to be losing basic morals like being polite and courteous. This book touches on these very basic principles that help people coexist harmoniously. It also touches on how to improve your communication by watching your body language and being clear in your intentions. Authenticity: God made everyone elaborately unique for a reason. Arise an authentic person, reveal and express the glory deposited within by learning to become all that you were designed to be. It takes some effort to dig out diamonds, but the process is worth it in the end. Spiritual matters: An encouragement for the believer to pray, have faith, love, forgive, and keep Jesus at the centre of it all. The book is for the one who simply wants to learn and discover the beauty of just living life in abundance!

The Rigged Race of Life Mark Romel,2018-03-07 It takes a fool to participate in a race which he is guaranteed to lose. The race of life is designed to ensure you fail ... unless you belong to the privileged elite. This is a race in which it is not the fastest runners who win, but those who, thanks to inheritance, are brazenly placed right in front of the finishing line. They could fall over and still win. It takes a fool to support this mad game, and that's exactly what the system produces: fools in their legions. They are the foot soldiers of the Dumbocracy, the Idiocracy, the Moronarchy. They are all slavish followers of Freedumb. The 1% have done an astounding job of controlling the 99% and making the masses serve them at all times. The 99% dream of being the 1%. That's the American Dream. Those who dream of being part of the rich elite will never revolt against the rich elite, even when that's the only way to free themselves. Herbert Marcuse wrote, At the highest stage of capitalism, the most necessary revolution appears as the most unlikely one.

101 Mantras for Living with Really Happier Experiences in Life Ratan Budhani,2018-09-24 These are some of the excerpts from the book. • Why are we born? This question poses a great challenge for many of us. The best answer to this would be..... • The poor long for riches, the rich long for heaven, but the wise long for a peaceful mind. • In order to perform optimally you need to nurture your body. You wouldn't fill your car with sludge, leave it in the garage for five years, and then expect it to win a race. • Every day you are impacting the world, and every day you are creating your life through your thoughts. Think whatever you like, big or small, rich or poor, fair or unfair, and those thoughts will strive to become the things and events of your life. It's an immutable law. • Every human action is either driven by fear or by greed. Beyond the shadow of a doubt both are negative vibrations. One of the best ways you can MAKE yourself happier, in all your attempts, is begin to come from a positive vibration and that's love. • Your expectations can literally influence your real life experiences. So be aware and consciously choose to create positive expectation with everything you do... • Do what you love and enjoyment will follow. Do what you love and you will feel more fulfilled. Do what you love and the money will seem less relevant. Do what you love, and you'll never work a day in your life. Alongside, love what you do and you come out a shining star. • Enjoy the process and be willing to accept what comes your way. No matter how successful you are, if you have not stopped to enjoy yourself along the way, your success is half-full. Secret of happiness is not found in receiving more, but in developing the capacity to enjoy more. • Mistakes come from: acting in ignorance or in innocence or through carelessness or acting hastily or acting in fear or acting in worry or acting in doubt or acting under anxiety.
