The River Fans Out Yiheng Zhao,2020-10-06 This book presents 18 highly influential essays on Chinese literature and semiotics by Professor Zhao Yiheng, including his analysis and discussions of the development of Chinese literature and its characteristics from traditional to modern times. It is divided into three parts: traditional Chinese literature, contemporary Chinese literature, and semiotics. In the first part, Professor Zhao summarizes the core elements of narrative cultural relations, ethical dilemmas, and narrative features. He also provides a comprehensive description of the formal structures in Chinese traditional literature. Taking the traditional Chinese play White Rabbit as a case, he discusses the connections between the narrative structure and the characteristics of Chinese novels and stratification of Chinese culture.

Promoting Climate Change Awareness through Environmental Education Wilson, Lynn,Stevenson, Carolyn,2015-09-22 Addressing global climate change is a monumental battle that can only be fought by the leaders of tomorrow, but future leaders are molded through education and shaped by the leaders of today. While the pivotal role of education in spreading

awareness of climate change is one universally espoused, equally universal is the recognition that current education efforts are falling woefully short. Promoting Climate Change Awareness through Environmental Education stems the rising tide of shortcomings in environmental education by plugging a known gap in current research and opening a dialogue for the future. Targeting an audience of young scholars, academics, researchers, and policymakers, this volume provides a much needed dam of empirical evidence regarding the role of youth education in addressing one of the greatest challenges of our age. This timely publication focuses on topics such as building resilience to climate change, green learning spaces, gender issues and concerns for developing countries, and the impact of young adults on the future of environmental sustainability.

Building Sustainability Through Environmental Education Wilson, Lynn A.,Stevenson, Carolyn N.,2018-12-07

Global climate change will alter the environmental forces of today and increasingly affect weather patterns, rises in temperature, and government policies for decades to come. To provide future generations with the knowledge and resources needed to develop solutions for these ongoing issues, current shortcomings in environmental education need to be addressed. Building Sustainability Through Environmental Education is a collection of innovative research on methods and applications for creating comprehensive environmental education programs that support sustainability practices and instruct students on a variety of topics including water resource management, disaster risks and mitigation, and issues surrounding climate change. Targeting an audience of educators, conservationists, instructional designers, administrators, academicians, researchers, policymakers, and students, this publications provides practical applications and examples of integrating best environmental sustainability practices into education.
