The A to Z of Australian Radio and Television Albert Moran, Chris Keating, 2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television, their media moguls have frequently bought up foreign companies, and people around the world have been able to enjoy such Australian productions as *The Flying Doctors*, *Neighbours*, and *Kath and Kim*. The origins, early development, and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene. *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry. This is accomplished through the use of a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on directors, producers, writers, actors, television and radio series, and television and radio stations.

The Radio Station John Allen Hendricks, Bruce Mims, 2018-05-01 The Radio Station offers a concise and insightful guide to all aspects of radio broadcasting, streaming, and podcasting. This book's tenth edition continues its long tradition of guiding readers to a solid understanding of who does what, when, and why in a professionally managed station. This new edition explains what radio in America has been, where it is today, and where it is going, covering the basics of how programming is produced, financed, delivered and promoted via terrestrial and satellite broadcasting, streaming and podcasting, John Allen Hendricks and Bruce Mims examine radio and its future within a framework of existing and emerging technologies. The companion website is new revised with content for instructors, including an instructors' manual and test questions. Students will discover an expanded library of audio interviews with leading industry professionals in addition to practice quizzes and links to additional resources.

Radio & TV News, 1921 Some issues, Aug. 1943-Apr. 1954, are called Radio-electronic engineering ed. (called in 1943 Radionics ed.) which include a separately paged section: Radio-electronic engineering (varies) v. 1, no. 2-v. 22, no. 7 (issued separately Aug. 1954-May 1955).

Encyclopedia of Radio 3-Volume Set Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago, the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people, networks and organizations, regulation and policies,

audience research, and radio's technology. This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old, with essays that provide essential information on the subject as well as comment on the significance of the particular person, organization, or topic being examined.
