*American Culture, American Tastes* Michael Kammen, 2012-10-03 Americans have a long history of public arguments about taste, the uses of leisure, and what is culturally appropriate in a democracy that has a strong work ethic. Michael Kammen surveys these debates as well as our changing taste preferences, especially in the past century, and the shifting perceptions that have accompanied them. Professor Kammen shows how the post-traditional popular culture that flourished after the 1880s became full-blown mass culture after World War II, in an era of unprecedented affluence and travel. He charts the influence of advertising and opinion polling; the development of standardized products, shopping centers, and mass-marketing; the separation of youth and adult culture; the gradual repudiation of the genteel tradition; and the commercialization of organized entertainment. He stresses the significance of television in the shaping of mass culture, and of consumerism in its reconfiguration over the past two decades. Focusing on our own time, Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues, and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen. As a result of this diminution of cultural authority, he says, definitive pronouncements have been replaced by divergent points of view, and there is, as well, a tendency to blur fact and fiction, reality and illusion. An important commentary on the often conflicting ways Americans have understood, defined, and talked about their changing culture in the twentieth century.

The 1920s Kathleen Drowne,Patrick Huber,2004-03-30 The American 1920s had many names: the Roaring Twenties, the Jazz Age, the Dry Decade, and the Flapper generation. Whatever the moniker, these years saw the birth of modern America. This volume shows the many colorful ways the decade altered America, its people, and its future. American Popular Culture Through History volumes include a timeline, cost comparisons, chapter bibliographies, and a subject index. Writers as

diverse as Ernest Hemingway, William Faulkner, and Damon Runyon presented distinct literary visions of the world. Jazz, blues, and country music erupted onto the airwaves. The exploits of Babe Ruth and Murderers' Row helped save baseball from its scandals, while such players as Red Grange and Notre Dame's Four Horsemen brought football to national prominence. Yo-yos, crossword puzzles, and erector sets appeared, along with fads like dance marathons and flagpole sitting. Rudolph Valentino, talkies, and Clara Bow's It girl appeared on the silver screen. Prohibition indirectly led to bootlegging and speakeasies, while the growing rebelliousness of teenagers highlighted an increasing generation gap.

*A History of Women in the West: Toward a cultural identity in the twentieth century*, 1992

A History of Women in the West: Toward a cultural identity in the twentieth century Georges Duby, Michelle Perrot, 1992 Discusses the legal, social, and religious position of women in the Greco-Roman world, Middle Ages, Renaissance, Industrial Revolution, and modern era.

*Mass Production, the Stock Market Crash, and the Great Depression* Bernard C. Beaudreau, 1996-10-21 Economists and historians have viewed the events of the 1920s, the stock market boom and crash, the Great Depression and the New Deal, as largely independent events. This work provides an integrated view of this important period arguing that all of these events were the result of the electrification of U.S. industry from 1910 to 1926. The author goes from electrification through the stock market boom to the tariffs of the late 20s to the stock market crash and depression followed by the National Industrial Recovery Act in 1933. The conclusion is that the NIRA is an attempt to correct the imbalance between production and consumption caused by industrial electrification.

European Integration and Competitiveness Frédérique Sachwald, 1994 European Integration and Competitiveness uses original data to examine mergers, acquisitions and cooperative alliances between firms in the period from 1980 to 1992.
