Rowntree and the Marketing Revolution, 1862-1969 Robert Fitzgerald,1995-01-05 Rowntree and the Marketing Revolution, 1862-1969 is a major study in the history of marketing in economic development, in addition to being a history of a well-known international company. Marketing history remains a neglected field of study, yet Rowntree's commercial success has been the direct result of applied marketing methods and major advances in product development, branding and advertising. It is surprising that marketing and mass consumption has been so neglected; yet Rowntree was a marketing pioneer. The company had in addition a prominent role in questioning managerial organization, business culture, industrial relations, restrictive practices, and multinational business. This book offers a comprehensive account of a company and its industry, but pursues themes and seeks to answer areas of debate, illuminating the ways in which marketing contributed to the growth of an enterprise.

Business Law David Kelly,Ruby Hammer,Janice Denoncourt,John Hendy,2020-07-12 This fourth edition of Business Law offers comprehensive and accessible coverage of the key aspects of business law. Established legal topics such as the English legal system, Contract, Consumer, Intellectual Property, Company and Employment Law, and emerging areas such as Health, Safety and Environmental Law are all addressed in the context of business. The work has been thoroughly updated to include all the major recent developments in business law, such as the new EU Trade Secrets Directive and case outcomes decided since the publication of the last edition. The book also discusses the impact of Brexit. In addition, the book features extensive diagrams and tables, revision summaries, reading lists, and clear key case boxes for easy reference. This book is ideal reading for undergraduate law and business studies students, while also applicable to practitioners and those with a more general interest in business law.

International Studies Scott Straus,Barry Driscoll,2025-08-19 Through an intellectually stimulating and empirical approach to global studies, students examine how key factors—forces, interactions, and tensions—contribute to world events and global problems.

Intellectual Property Law Tanya Frances Aplin,Tanya Aplin,Jennifer Davis,2022 This work provides a full and clear exposition of the fundamentals of intellectual property law in the UK. It combines excerpts from cases and a broad range of

secondary works with insightful commentary from the authors which will situate the law within a wider international, comparative and political context.
