Lexical Availability in English and Spanish as a Second Language Rosa María Jiménez Catalán, 2013-09-06 This volume contributes to the research in two different research areas: lexical availability studies and vocabulary research in second or foreign languages. Lexical availability is defined as the words that immediately come to mind as a response to a stimulus provided by topics related to domains closely connected to daily life: for instance animals, food and drink, daily activities, politics, or poverty. Lexical availability is a dimension of learners' receptive and productive lexical competence, and, consequently, an important variable of learners' communicative competence. Written by leading researchers in Spanish and English applied linguistics, the studies presented in this volume offer the reader findings and insights from studies conducted in learners with different mother tongues, who learn English or Spanish as their second or third language. "This book made me aware of an approach to vocabulary acquisition which has a long tradition in European research, but has been somewhat neglected by English-speaking researchers. The methodology was pioneered in France where it developed into the Français Fondamental project - an influential approach to the vocabulary needs of learners of French. It was also taken up by Spanish researchers, and more recently developed by the team at La Rioja University. Where English-language research has focused on the frequency of words in large corpora and the implications of this feature for L2 vocabulary acquisition, the lexical availability tradition takes a much more learner-centred approach to L2 vocabulary skills, directly reflecting learners' needs and learners' ability to do things with small, effective vocabularies. This leads to a set of research priorities that look refreshingly different from the ones we are used to. Read this book. It might change the way you think about vocabulary research." Fundamentos romanísticos del Derecho contemporáneo (Tomo VI. Derecho de obligaciones) Varios autores, 2021-06-01 En un momento de amplia discusión acerca del lugar que ocupa la materia del Derecho Romano y su recepción en Europa dentro de los planes de estudio de la licenciatura de derecho, en la primavera del año 1994, el catedrático e insigne romanista Don Justo García Sánchez tuvo la gran idea, junto con el profesor Don Gerardo Turiel de Castro (q.e.p.d), de poner en marcha un proyecto desde Oviedo, que perseguía un doble objetivo: 1) servir para una reunión anual de los romanistas iberoamericanos con convocatorias indistintas en la Península y en el continente Americano, 2) reunir diferentes estudios que enriquecieran los conocimientos relativos a la recepción del Derecho Romano. Fruto de este proyecto fue la constitución en Oviedo el día 22 de abril de 1994 de la Asociación Iberoamericana de Derecho Romano, cuyos fines son: a) El estudio y difusión del Derecho Romano, tanto en su sentido estricto, como en el ámbito de la tradición jurídica romanística y su proyección en la legislación europea e iberoamericana. b) La realización de todas las actividades conducentes al cumplimiento de dicho fin. c) El mantenimiento de relaciones científicas a través de congresos, seminarios, cursos y publicaciones. d) Cualquier otro tendente al cumplimiento de los fines de la asociación, y una particular colaboración con entidades jurídicas de España e Iberoamérica. Estos once tomos que ahora se presentan son un recopilatorio de las valiosas actas de la Asociación, fruto de la labor desarrollada en las reuniones mantenidas en los últimos años por expertos en la materia.
