De-neocolonizing Africa Unwana Samuel Akpan, 2024-10-16 This book fills a critical void in African research: a lack of engagement with the question of how digital capabilities can be harnessed to liberate Africa from the subtle grips of neocolonization. Bringing together seasoned and emerging scholars from diverse regions of Africa, the book dissects the intricate relationship between technology and the persistent echoes of colonial legacies. The authors distinguish between 'decolonization'—the historical struggle for independence—and the ongoing imperative of 'de-neocolonization,' an evolving battle against persistent but more subtle colonial influences, now manifesting in the digital terrain. With a focus on the profound impact of digital tools, the contributors question how these capabilities can serve as instruments of liberation in a globalized age. Through a comprehensive examination of the intersection between Africa, digital technology, and neocolonization, the book not only breaks new ground but also positions itself as an invaluable resource for students, academics, and professionals globally. By offering fresh perspectives, nuanced analyses, and innovative solutions, this book emerges as an essential addition to the global intellectual academe, reshaping the discourse on African autonomy, identity, and emancipation from neocolonial chains.

The Case for Vaccine Mandates Alan Dershowitz, 2021-10-26 In *The Case for Vaccine Mandates*, Alan Dershowitz—New York Times bestselling author and one of America's most respected legal scholars—makes an argument, against the backdrop of ideologically driven and politicized objections, for mandating (with medical exceptions) vaccinations as a last resort, if proved necessary to prevent the spread of COVID. Alan Dershowitz has been called “one of the most prominent and consistent defenders of civil liberties in America” by Politico and “the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights” by Newsweek. He is also a fair-minded and even-handed expert on civil liberties and constitutional rights, and in this book offers his knowledge and insight to help readers understand how mandated vaccination and compulsion to wearing masks should and would be upheld in the courts. *The Case for Vaccine Mandates* offers a straightforward analytical perspective: If a vaccine significantly reduces the threat of spreading a serious and potentially deadly disease without significant risks to those taking the vaccine, the case for governmental compulsion grows stronger. If a vaccine only reduces the risk and seriousness of COVID to the vaccinated person but does little to prevent the spread or seriousness to others, the case is weaker. Dershowitz addresses these and the

issue of masking through a libertarian approach derived from John Stuart Mill, the English philosopher and political economist whose doctrine he summarizes as, “your right to swing your fist ends at the tip of my nose.” Dershowitz further explores the subject of mandates by looking to what he describes as the only Supreme Court decision that is directly on point to this issue; decided in 1905, *Jacobson v. Massachusetts* involved a Cambridge ordinance mandating vaccination against smallpox and a fine for anyone who refused. In the end, *The Case for Vaccine Mandates* represents an icon in American law and due process reckoning with what unfortunately has become a reflection of our dangerously divisive age, where even a pandemic and the responses to it, divide us along partisan and ideological lines. It is essential reading for anyone interested in a non-partisan, civil liberties, and constitutional analysis.

Spinning into Control Amiel Kornel, 2017-11-20 Could everything we’ve learned about entrepreneurship simply be wrong? There is no shortage of how-to books with ‘manual’ in the title, and articles promising ‘The 7 [or 6 or 10] key traits of successful entrepreneurs’, which breed an infectious optimism all too often quashed as startups fail. Amiel Kornel puts a persuasive case for an alternative theory that while grounded in the natural way great entrepreneurs operate resists reduction to a simple recipe or method. Kornel, who has coached hundreds of entrepreneurs, believes that disciplined planning, lean management, and commitment are no guarantee of success. The limited resources of a startup demand knowing when and how to explore and ‘tinker’, artfully recombining ideas, designs, media, software, and materials on hand. True venture craftsmen harness and redirect the energy of startups that might otherwise spin dangerously out of control towards failure. The stories of entrepreneurs like Sun Basket’s Adam Zbar, Minecraft’s Markus Persson, Y Combinator’s Paul Graham, and Metacode Technologies’ Joel Schatz are woven throughout the book, along with examples from beyond business, including legendary ocean-racing sailor Isabelle Autissier and acclaimed urban designer Gerard Penot. Kornel shows how meeting challenges in a broad variety of fields rife with uncertainty often relies on the ability to loosen the coupling between command and control, a prerequisite of skillful improvisation.

A Complaint Is a Gift, 3rd Edition Janelle Barlow, 2022-11-08 The third edition of this bestseller (over 275,000 copies sold) builds on the tested formula that helps organizations recognize the value of complaints using updated examples and concepts in the age of COVID-19. The first edition of *A Complaint Is a Gift* introduced the revolutionary notion that customer complaints are not annoyances to be dodged, denied, or buried but are instead valuable pieces of feedback-not to mention your best bargain in market research. Complaints provide a feedback mechanism that can help organizations rapidly and inexpensively strengthen products, service style, and market focus. Most importantly, complaints that are well received create customer loyalty. This new edition condenses the tried and true eight-step formula into a tighter, more efficient three-step formula. From her work with clients, the author has updated industry-specific complaint examples and added in new

concepts, such as a process that enables employees to handle complaints with increased emotional resilience-something that is sorely needed since dealing with increasingly difficult customers is a common occurrence in the wake of the COVID-19 pandemic. Handling complaints doesn't have to be a negative, soul-crushing experience. Janelle Barlow gives the right tools to treat each of them as a source of innovative ideas that can transform your business.
