Marital Cruelty in Antebellum America Robin C. Sager,2016-07-06 In *Marital Cruelty in Antebellum America*, Robin C. Sager probes the struggles of aggrieved spouses shedding light on the nature of marriage and violence in the United States in the decades prior to the Civil War. Analyzing over 1,500 divorce records that reveal intimate details of marriages in conflict in Virginia, Texas, and Wisconsin from 1840--1860, Sager offers a rare glimpse into the private lives of ordinary Americans shaken by accusations of cruelty. At a time when the standard for an ideal marriage held that both partners adequately perform their respective duties, hostility often arose from ongoing domestic struggles for power. Despite a rise in the then novel expectation of marriage as a companionate relationship, and even in the face of liberalized divorce grounds, marital conflicts often focused on violations of duty, not lack of love. Sager describes how, in this environment, cruelty was understood as a failure to fulfill expectations and as a weapon to brutally enforce more traditional interpretations of marital duty. Sager's findings also challenge historical literature's assumptions about the regional influences on violence, showing that married southerners were no more or less violent than their midwestern counterparts. Her work reveals how definitions and perceptions of cruelty varied according to the gender of victim and perpetrator. Correcting historical mischaracterizations of women's violence as trivial, rare, or defensive, Sager finds antebellum wives both capable and willing to commit a wide variety of cruelties within their marriages. Her research provides details about the reality of nineteenth-century conjugal unions, including the deep unhappiness buried within them.

Awakening Rachel B. Vogelstein, Meighan Stone, 2021-07-13 Foreword by Tarana Burke. *Awakening* chronicles the remarkable global impact of the #MeToo movement. Since 2017, millions have joined the global movement known as #MeToo, catalyzing an unprecedented wave of women's activism powered by technology that reaches across borders, races, religions, and economic divides. Today, women in more than 100 countries are using the hashtag to fight the violence and discrimination they face—and winning. What started as an online campaign against sexual harassment has triggered the most widespread cultural reckoning on women's rights in history, with global implications for women's participation in the economy, politics, and across social and cultural life. *Awakening* is the first book to capture the global impact of this breakthrough movement. Bringing together political analysis and inspiring personal stories from women in seven countries—Brazil, China, Egypt, Nigeria, Pakistan, Sweden, and Tunisia—*Awakening* takes readers to the front lines of a networked movement that's fundamentally shifting how women organize for their own equality.

Abuse in the Family Alan R. Kemp, 1998 In this practical, eye-opening book, author Alan Kemp uses an ecological approach to examine the widespread social problem of family maltreatment. By examining the complex relationships that exist on a macro, meso, and micro level, students will be better prepared to make a difference in a world confronted by this colossal and disheartening social problem and to answer the following questions: Why does family maltreatment occur?

What do its victims experience?, How do they recover?, What can we do to help them?, How can we understand the perpetrators?, and How might we reduce or prevent family abuse?

The Language of Battered Women Carol L. Winkelmann, 2004 This study of battered women living in a shelter offers a rhetorical analysis of survivors' personal theologies. Author Carol L. Winkelmann holds that while it is virtually ignored in the domestic violence literature, the Christian heritage of many battered women plays a significant, if complicated, role in their language, thoughts, and lives. The women's religious faith serves not only to sustain them through periods of profound suffering, but also to develop solidarity with other culturally-different women in the shelter. Designed to assist women to greater independence, the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence. To heal, the women engage in dialogue that is dense in religious imagery, talking about the relationship of God and the church to suffering and evil. At the same time, these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives. Together, battered women are sometimes able to construct creative theological responses to the problem of suffering and evil. A mix of religious and secular languages compels them to devise new ways of thinking about their role in family, church, and society.

Arresting Abuse Keith Guzik, 2009 Somewhat overlooked in this debate has been how mandatory arrest and no-drop prosecution affect abusers, a critical question for understanding the power of criminal punishment to combat intimate partner abuse. In *Arresting Abuse*, Keith Guzik answers this question. Drawing both from firsthand observations of a police department and a criminal court following mandatory policies and extensive interviews with 30 offenders arrested and prosecuted for domestic violence, *Arresting Abuse* provides a critical assessment. While mandatory arrest and no-drop prosecution allow the state to extend formal legal supervision over an increasing number of violent men and women, thus seemingly increasing its power over them, offenders prove resistant to change. They see themselves as victims of injustice, continue to view their violence as justified, and devise new strategies to preserve their definition and enactment of self.

Workbook It Ends with Us Quotes Alex Parker,2018-01-14 This book is quotes for inspiration. Violence against women and children is a very sensitive topic because nowadays anyone can be a victim or is already suffering from it. According to the World Health Organization, domestic violence is a pattern of abusive behavior in any relationship that is used by one partner to gain or maintain power and control over another intimate partner. It can be physical, sexual, emotional, economic, or psychological actions or threats of actions that influence another person. This story broke my heart multiple times and it's really frustrating that here I am, trying to make sense out of it and putting myself back together after having it torn and crushed into pieces. I personally do not know anyone who is a victim of abuse, and I don't even know if I'm ready to face anyone of them.

Real Majority, Media Minority Laura Flanders,1997 While some women have become multi-million dollar earners, the perspectives of most women are still sidelined, Flanders documents. And that's not just sexism, she says - it's bad reporting. Real Majority, Media Minority gathers together into one collection almost ten years of Flanders extraordinary essays and interviews analyzing the structure and habits of commercial news media. In an eloquent argument, she says it's time to go beyond simple bean counting. What's critical isn't who's telling the story, but how the story's being told.
