Ventimila leghe sotto i mari Jules Verne,2018-06-20 Il terrore di tutti gli oceani, la mostruosa creatura degli abissi dagli occhi fluorescenti che sperona le navi e affonda le fregate altro non è, in realtà, che un sottomarino. Il Nautilus del leggendario capitano Nemo. A tre uomini viene affidato il compito di fare luce su questa creatura misteriosa ed è durante l'avvistamento che Arronax, il suo servitore Consiglio e Ned Land vengono catturati e fatti prigionieri del sottomarino. Inizia così una lunga avventura tra isole fantastiche, foreste sottomarine e perle giganti. I protagonisti viaggeranno in lungo e in largo dal Polo Sud, dove rimarranno bloccati nel ghiaccio, fino alla volta della leggendaria città di Atlantide. Una notte, intorno alle coste della Norvegia, il sottomarino viene travolto da un vortice. Riusciranno a salvarsi dalla furia del mare? E, soprattutto, a fuggire dal Nautilus?

Vento in poppa Fabio Basile,2025-06-05 Eolo è stato per gli antichi Greci il dio del vento, una delle forze della natura. In meteorologia il vento è il movimento di una massa d'aria atmosferica da un'area con alta pressione, a un'area con bassa pressione. Fino dalla antichità la sua forza è stata utilizzata dall'uomo per alcune attività, fra cui il funzionamento dei primi mulini per la macinazione del grano. La navigazione a vela , utilizzata fin dal tempo degli antichi Egizi, nella notte dei tempi, utilizza come propulsione la fonte energetica più ecologica e rinnovabile finora resasi disponibile: quella eolica, cioè generata dal vento. Essa ha due caratteristiche positive: è verde, perché il suo utilizzo non crea alcuna emissione di sostanze inquinanti, e poi è disponibile gratuitamente in natura quando presente. Si tratta di una fonte energetica disponibile quasi ovunque, soprattutto sulle superfici di laghi, grandi fiumi, mari ed oceani. Non stupisce quindi che l'uomo, fino dalla antichità, la ha utilizzata per la navigazione. Esistono diverse attività sportive legate all'uso di una vela. Alcune sono note e praticate da numerosi appassionati ovunque. Lo sport più conosciuto, è la navigazione con mezzi nautici di ogni tipo e dimensioni. Sono nate con il tempo diverse attività sportive legate all'uso della vela. Oggi si va dal windsurfing e kitesurfing , passando per il landsailing, per arrivare alle imbarcazioni di grandi dimensioni e ai velieri, vere e proprie navi, che usano

quasi esclusivamente la forza dei venti per avanzare. Esistono in questo ambito attività sportive legate anche al volo, alcune ritenute piuttosto pericolose. Alcuni esempi sono il volo con l'aliante, quello con il parapendio e quello piuttosto estremo praticato da una nicchia ristretta di alcuni super specialisti: quello realizzato con una tuta alare. Il motore a combustione, quando è presente su una imbarcazione a vela, svolge solo una funzione ausiliaria. Viene infatti utilizzato per la propulsione solo per alcune manovre in porto, quando si verifica una avaria all'impianto velico o in assenza di ventilazione. Sono tanti gli appassionati praticanti degli sport a vela che hanno tanti praticanti ovunque dove sono presenti due elementi naturali essenziali: una grande superficie di acqua e il vento. Ogni anno si svolgono tante competizioni ovunque nel mondo dove esistono due elementi essenziali: una grande superficie di acqua che hanno protagoniste le imbarcazioni a vela. In Italia la più nota è la Barcolana, che si svolge nel Golfo di Trieste. A livello internazionale le competizioni veliche più note sono la Ocean Race e l'Amica's Cup, che si svolgono con gare che hanno luogo su mari ed oceani di diverse nazioni di vari continenti. Questi due eventi sportivi attirano equipaggi e imbarcazioni provenienti da ogni parte del mondo e le loro tappe si possono seguire oggi non solo tramite le reti televisive terrestri e satellitari, ma anche con i moderni dispositivi mobili: smartphone e tablet in particolare. Si tratta di un argomento di attualità e di grande interesse per tutti gli appassionati di sport. Fabio Basile, medico in pensione, da alcuni anni svolge anche l'attività di scrittore indipendente. Ha scritto molti libri, soprattutto guide pratiche, trattando numerosi temi. Kobo Store ha pubblicato sul catalogo online oltre 180 titoli di questo autore. Ha scritto diverse guide dedicate ad attività sportive e campionati molto seguiti: Formula Uno 2023 e 2025 (2 libri distinti), Motomondiale 2025, Sci Alpino e Coppa del mondo 2024-2025, Motonautica. Questo nuovo libro è una guida generale e pratica sul mondo della vela e include numerose utili informazioni per gli appassionati. Il testo, uno dei pochi in ebook su questo tema in ebook, rimarrà disponibile anche nei cataloghi dei più noti book shops online.
