The Strangers and Brothers Series of C.P. Snow Thomas Robert Steiner, 1960

The Strangers and Brothers Series of C.P. Snow Finley Robert Greene (Jr.), 1964

The Sleep Of Reason C.P. Snow, 2010-01-16 The penultimate novel in the Strangers and Brothers series takes Goya's theme of monsters that appear in our sleep. The sleep of reason here is embodied in the ghastly murders of children that involve torture and sadism.

The Masters C. P. Snow, 2008-09-23 The fourth in the Strangers and Brothers series begins with the dying Master of a Cambridge college. His imminent demise causes intense rivalry and jealousy amongst the other fellows. Former friends become enemies as the election looms.

Strangers and Brothers Charles Percy Snow, 1984 C. P. Snow's Strangers and Brothers is a roman fleuve comprising eleven novels and covering a period of more than fifty years. The entire sequence is narrated by Lewis Eliot, an intelligent, sensitive, and decent man whose life progresses against the backdrop of some of the critical events of twentieth century history. The sequence is divided into novels of direct experience and observed experience. Although Lewis Eliot is present in the novels of observed experience, his personal life is given a secondary role, as he concentrates on several figures who have played crucial roles in his life. Snow carefully establishes his narrator's emotional makeup in *Time of Hope* (which, though Snow's third book in the series, precedes *George Passant* and *The Light and the Dark* in the narrative chronology). Set primarily in an unnamed provincial town in the Midlands of England, the novel depicts Lewis' early years, characterized by a sense of insecurity stemming from the Eliot family's genteel poverty following the bankruptcy of his father during World War I. -- From <https://www.enotes.com/topics/strangers-brothers> (Feb. 25, 2019).

George Passant C.P. Snow, 2024-10-15 A wise, moving novel about a mentor and his protégé: "The central character . . . is immensely appealing . . . a peculiarly haunting and sympathetic figure." —The New York Times In late 1920s England, Lewis Eliot is building a career in law and has found a mentor in George Passant. The quirky small-town solicitor's clerk has much wisdom to share from his years of experience—during which he has also managed to hold on to his idealism. Eliot is just one of the many young devotees drawn to Passant, hoping for guidance from the man who's always ready to extend a loan or a listening ear. However, the young men will have to learn to fly on their own—and come to Passant's aid

themselves—in this absorbing novel by “an extremely shrewd observer of men and society” (Commentary). “An enlightened discussion of questions of conscience and conduct and commitment. . . . Filled with the concerns which are so fundamentally and essentially a part of this writer’s work and have attracted a firm following.” —Kirkus Reviews Originally published under the title *Strangers and Brothers*

Time of Hope C.P. Snow, 2024-10-15 A young man resolves to rise above his humble beginnings in the series praised as a “masterwork . . . a panorama of middle and upper-middle class English society” (The New York Times). Nine-year-old Lewis Eliot learns that his father is bankrupt in the summer of 1914. This family crisis—and the tragedy that follows—shape his future, but with fierce willpower, he diligently studies and eventually finds a promising law career in London. However, that very determination to succeed against difficult odds may prove Eliot’s undoing as he courts and marries a troubled, wealthy woman, raising questions of social class, marriage, and the nature of ambition. “Snow depicted a milieu of which he was an intimate and exhilarating part. [The *Strangers and Brothers* novels are] precisely, often poetically written books . . . strong on plot and narrative and nuances of power politics.” —The New York Times “A sensitive evocation of the early background of Lewis Eliot, Snow’s narrator, and with the first stages of the career that is to take him through so many different layers of English society. . . . [The novel] gives a remarkable impression of the world of the law.” —Commentary

Homecomings C.P. Snow, 2024-10-15 An emotionally devastated widower is drawn to a married woman in this “impressive” novel set in wartime England (Kirkus Reviews). Lewis Eliot has lost his deeply troubled wife, Sheila, under tragic circumstances. While her suicide has shaken Lewis to his core, it has also put an end to a painful and difficult marriage. In the wake of Sheila’s passing and Britain entering the Second World War, Lewis plunges into his civil service work. During this time, he meets Margaret and begins to feel his heart stirring—and sees the possibility of healing. But Margaret already has a husband, severely complicating the attraction they both feel, in this series of historical novels that the Telegraph called “Balzacian masterpieces of the age.” “A master craftsman in fiction.” —The New York Times “An extremely shrewd observer of men and society.” —Commentary
