

The Color Of Air

Zhe Xu

The Color of Air Gail Tsukiyama, 2020-07-07 PARADE's Best Books to Read this Summer A rich historical novel that illustrates why connection is more important and more vital than ever." -New York Times bestselling author Lisa See Daniel Abe, a young doctor in Chicago, is finally coming back to Hawai'i. He has his own reason for returning to his childhood home, but it is not to revisit the past, unlike his Uncle Koji. Koji lives with the memories of Daniel's mother, Mariko, the love of his life, and the scars of a life hard-lived. He can't wait to see Daniel, who he's always thought of as a son, but he knows the time has come to tell him the truth about his mother, and his father. But Daniel's arrival coincides with the awakening of the Mauna Loa volcano, and its dangerous path toward their village stirs both new and long ago passions in their community. Alternating between past and present—from the day of the volcano eruption in 1935 to decades prior—The Color of Air interweaves the stories of Daniel, Koji, and Mariko to create a rich, vibrant, bittersweet chorus that celebrates their lifelong bond to one other and to their immigrant community. As Mauna Loa threatens their lives and livelihoods, it also unearths long held secrets simmering below the surface that meld past and present, revealing a path forward for them all.

What's the Color of Air? Una Serper, 2022-12-21 Everything has a name. Everything has a color. So what's the name of the color of air? In a group of animals there is a blind Zebra. She is asking her friends to explain what various colors look like. They do, with some success, until she asks about the color of air. This question proves harder to solve until the Zebra comes up with the answer herself.

In this book, a system is presented that will accommodate every magical technique used with the other alphabets, but using the familiar American alphabet that we all know and use daily. This is a complete handbook for the system. All the parts are described and illustrated for those who wish to explore this new way of bringing magic into the magical practice. While a lot remains to be published in the specifics that are mentioned, this book

will give you all the tools to work with the system. If you prefer to apply your own magical alphabet to the system, you can. Correspondences are provided in the Appendix. But here is a way to work with a language you know, with letters you are already acquainted with, in a variety of ways that are new.
