[A Colourful Look at Trinidad and Tobago Folklore](#) Shazadah Luke,2023-01-04 This book explores the beautiful world of folklore from the Caribbean Islands. It combines digital design and artificial synthesizing to present folklore characters beautifully. Explore this colourful, tropical inspired imagery from Trinidad and Tobago.

Folklore Stories of Trinidad and Tobago Al Ramsawack,2017 Compilation of the folklore stories of the award-winning T&T folklorist, Al Ramsawack. This collection are stories he published between 1971 and 2016. His stories are largely influenced by Amerindian, French, East Indian, Spanish and African cultures within this twin island state in the Caribbean.

Island Paradise: The Myth Melanie A. Murray,2009-01-01 A colonial discourse has perpetuated the literary notion of islands as paradisal. This study explores how the notions of island paradise have been represented in European literature, the oral and literary indigenous traditions of the Caribbean and Sri Lanka, a colonial literary influence in these islands, and the literary experience after independence in these nations. Persistent themes of colonial narratives foreground the aesthetic and ignore the workforce in a representation of island space as idealized, insular, and vulnerable to conquest; an ideal space for management and control. English landscape has been replicated in islands through literature and in reality - the 'Great House' being an ideological symbol of power. *Island Paradise: The Myth* investigates how these entrenched notions of paradise, which islands have traditionally represented metonymically, are contested in the works of four postcolonial authors: Jamaica Kincaid, Lawrence Scott, Romesh Gunsekera, and Jean Arasanayagam, from the island nations of the Caribbean and Sri Lanka. It analyzes texts which focus on gardens, island space, and houses to examine how these motifs are used to re-vision colonial/contested sites. This book examines the relationship between landscape and identity and, with reference to Homi K. Bhabha, considers how these writers offer an alternative space for negotiating the ambivalence of hybridity.

Encyclopedia of the African Diaspora Carole Boyce Davies,2008-07-29 The authoritative source for information on the people, places, and events of the African Diaspora, spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now there was no single, authoritative source for information on this broad, complex

discipline. Drawing on the work of over 300 scholars, this encyclopedia fills that void. Now the researcher, from high school level up, can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation have produced a rich tapestry of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples, separated by time and distance, but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for easy use by all.

A Tentative Bibliography of Caribbean Folklore ,1975

The Peoples of the Caribbean Nicholas J. Saunders,2005-12-16 A true first, this encyclopedia is the only comprehensive guide ever published on the archaeology and traditional culture of the Caribbean. In *The Peoples of the Caribbean*, archaeologist Nicholas J. Saunders assembles for the first time a comprehensive sourcebook on the archaeology, folklore, and mythology of the entire region, charting a story 7,000 years in the making. Drawing on decades of study in the Caribbean and South America, Saunders explores landmark archaeological sites, such as Caguana in Puerto Rico, with its ceremonial architecture and ballcourts, and plantation sites, such as Jamaica's Drax Hall. The author dives into the underwater archaeology of Spanish treasure galleons and untangles stories of cannibalism, zombies, and hallucinogenic snuffing rituals. He examines the impact of key Europeans, such as Christopher Columbus, and introduces readers to the native people, such as the Arawak, who welcomed them. Bringing the story up-to-date, Saunders chronicles the struggle of the indigenous people, from the Caribs of Dominica to the Taíno of the Dominican Republic, trying to reclaim and revitalize their historical cultural identity.

Indigenous Resurgence in the Contemporary Caribbean Maximilian Christian Forte,2006 Views of the modern Caribbean have been constructed by a fiction of the absent aboriginal. Yet, all across the Caribbean Basin, individuals and communities are reasserting their identities as indigenous peoples, from Carib communities in the Lesser Antilles, the Garifuna of Central America, and the Taíno of the Greater Antilles, to members of the Caribbean diaspora. Far from extinction, or permanent marginality, the region is witnessing a resurgence of native identification and organization. This is the only volume to date that focuses concerted attention on a phenomenon that can no longer be ignored. Territories covered include Belize, Cuba, Dominica, the Dominican Republic, French Guiana, Guyana, St. Vincent, Suriname, Trinidad and Tobago, and the Puerto Rican diaspora. Writing from a range of contemporary perspectives on indigenous presence, identities, the struggle for rights, relations with the nation-state, and globalization, fourteen scholars, including four indigenous representatives, contribute to this unique testament to cultural survival. This book will be indispensable to students of Caribbean history and anthropology, indigenous studies, ethnicity, and globalization.

Caribbean Folklore Mary Arnold Twining,1971

Understories: Plants and Culture in the American Tropics Lesley Wylie,2023-11-15 *Understories: Plants and Culture in the American Tropics* establishes the central importance of plants to the histories and cultures of the extended tropical region stretching from the U.S. South to Argentina. Through close examination of a number of significant plants – cacao, mate, agave, the hevea brasiliensis, kudzu, the breadfruit, soy, and the ceiba pentandra, among others – this volume shows that vegetal life has played a fundamental role in shaping societies and in formulating cultural and environmental imaginaries in and beyond the region. Drawing on a wide range of cultural traditions and forms across literature, popular music, art, and film, the essays included in this volume transcend regional and linguistic boundaries to bring together multiple plant-centred histories or ‘understories’ – narratives that until now have been marginalized or gone unnoticed. Attending not only to the significant influence of humans on plants, but also of plants on humans, this book offers new understandings of how colonization, globalization, and power were, and continue to be, imbricated with nature in the American tropics.

Jan's Mysterious Adventure Allison Joseph,2006-12 I was scared. I was sure that these two children who were all alone in the woods must be Douens and I know that Douens are spirits. I did not realize I was standing close to the edge of the stream, until Kelley shouted at me. Jan, step back, you might fall! I could not move because my legs were shaking. Jan, give me your hand! I stretched out my hand and tried to step back, but my feet slipped from under me and I fell into the stream. The current was very strong, and I headed down the stream at a terrific speed. I could hear Kelley screaming my name but the sound of her voice faded. About two miles down the stream a net that was placed across the stream stopped me. I held on to it and tried to scream for help, but there was no sound coming from my mouth. I knew that Kelley must have told my parents by now that I fell into the stream. My mother will be frantic, and my father will be terrified because his brother fell into this stream over twenty years ago and he was never found.

Perspectives of an Iconoclast Antonio Karantonis,2005 *Perspectives of an Iconoclast: Writings in Latin American Studies and International Relations* provides summaries of various Latin American cultures as well as essays that give historical accounts of relations with the United States including past CIA operations and interventions that still affect those respective Latin American societies today. The book provides such provocative essays as *Sleepwalking Through History*, an abstract analysis of the socioeconomic incentives of modern war; *Coca Culture*, an essay that reveals the traditional use of

Coca among Bolivia's indigenous people and how Coca plays a practical function within Bolivian culture including harvest and work cycles, bartering for goods, ect. The book's essays also promote the ideals of collective security and multilateralism in international relations including a progressive role for the United Nations and other international organizations that will serve to strengthen democracy and promote sustainable development abroad.
