Critical Marxist Theory Lukas Meisner, 2025-06-08 This book argues why Critical Theory – as first developed in the Zeitschrift für Sozialforschung – must be updated to help us tackling today's capitalist polycrisis, from economic via political to ecological crises. Yet, following the dissolution of the Institute for Social Research in New York, and the latest with the death of Adorno in 1969 and the death of Marcuse almost exactly ten years later, there has been a 'domestication' of the main strands of the Frankfurt School. To understand and overcome this domestication, the book traces, with the means of philosophy and sociology, its two affirmative steps in a liberal and in a postmodern turn. As an alternative to both, it defends Habermas' project of modernity, yet only by disentangling it – in Marxian fashion – from the capitalist process of modernisation. This disentanglement is at the same time a political radicalisation. It is necessary because the cultural-political ideal(s) of the project of modernity – from human autonomy via rational society to qualitative individuality – can only be realised beyond the framework of capitalism. As their conceptual concentrate, the book proposes political autonomy as a key concept confined neither by Kantian or liberal approaches nor by autonomist or operaist traditions. Rather, it draws on thinkers like Herbert Marcuse, Ellen Meiksins Wood, and Martin Hägglund to rephrase Marxist concepts such as social freedom, democratic socialism, and the end of prehistory. In this way, political autonomy is developed both as a legit criterion for justified critique and as the philosophical foundation and emancipatory goal of a pluralist yet transcapitalist Critical Marxist Theory.

*Marxism* George Lichtheim,2015-05-08 This book, first published in 1961 and revised in 1964, is both a critical study of a body of thought and an historical account of how Marxist theory arose from the context of European history in the 19th century. It traces the development of socialist thought from the French to the Russian Revolutions and attempts to show in what manner the political and intellectual problems of Central Europe between 1848 and 1948 came to dominate the theory and practice of that Marxist movement which formed the crucial link between the two revolutions. The author takes the view that Marxism is a movement and a body of doctrine which belongs essentially to the 19th century, which came to an end with the First World War and the Russian Revolution, and that its impact as a doctrine has now been absorbed.

*Heidegger and Marx* Laurence Paul Hemming,2013-01-31 Martin Heidegger and Karl Marx remain two of the most influential thinkers in philosophy, in political science and other social sciences, and in the humanities. Yet there has never been a full-length study in English of the relationship between their ideas, and there has only been one study in German (from 1966). *A Productive Dialogue* fills this gap and contradicts the widely held assumption that Heidegger had no significant engagement with Marx. Hemming focuses on four related areas of inquiry—Heidegger’s reading of Marx; Marx’s relation to G. W. F. Hegel; Heidegger’s disastrous political involvement with National Socialism; and the significance of Hegel, Marx, Heidegger, and Friedrich Nietzsche for the politics of the twentieth and twenty-first centuries. *A Productive Dialogue* explores the understanding of political processes, systems, and behavior that animates both thinkers.
