*Industrial Literature and Authors* Bianca Rita Cataldi, 2024-07-12 In recent years, the field of literary studies at the international level has become more involved in the analysis of the so-called industrial literature, a literary genre that focuses on the literary representation of factory work and workers' alienation. This book engages in the ongoing debate by offering a narratological analysis of Italian industrial novels in particular, while taking into consideration their paratexts and interrogating the possibility of the presence of a testimonial intent in the text. The study reconstructs the connections between visions of factory utopias and Italian industrial literature, starting with an overview of said visions of utopia and how they came into being in Europe following the industrial revolution. It then proceeds by exploring the relationship between the twentieth-century Italian entrepreneur Adriano Olivetti and Italian industrial authors, and the influence that Olivetti's visions of factory utopia had on these writers and how they perceived themselves as witnesses of factory life and workers' alienation. In analyzing these texts, and particularly the novels by Paolo Volponi and Ottiero Ottieri, the book focuses on the previously overlooked representation of the self in industrial literature and on how this self expresses the need for testimony.

*Individui e società tra mutamento e persistenze* Rosantonietta Scramaglia, 2018-10-01T00:00:00+02:00 Il volume, frutto della collaborazione di più autori, offre gli strumenti utili a comprendere i nostri comportamenti e i fenomeni più rilevanti della realtà di oggi. Vi sono descritti da un lato i cambiamenti avvenuti nell'era digitale, dall'altro ciò che invece persiste immutato nel tempo, riguardo sia a valori e comportamenti individuali, sia ai meccanismi e alle logiche sociali. Frammenti apparentemente eterogenei, ma che, insieme, contribuiscono a comporre il grande mosaico della società attuale e a far cogliere le sue prospettive future. Oltre al contrasto fra mutamento e persistenze, viene evidenziato anche il triplice livello - individuale, locale e globale - in cui viviamo e dove coesistono, talvolta in modo conflittuale, le unicità e le esigenze espresse a livello individuale, l'influenza dell'ambiente locale e l'appartenenza generalizzata a un mondo globale.

**Challenges from Urban Cultures** Dario Costi, 2024-12-14 This book offers a multidisciplinary perspective on the relationship between spirituality and the contemporary city, starting from a thought of Pope Francis claiming the need for a renewed look at the periphery among the current challenges for urban cultures. It gathers contributions describing different strategies for urban renewal and to develop the city of the future. They take into account aspects from architectural design,

political science, economy, theology, ethics, anthropology, and philosophy. Based on the italian workshop Sfida delle Culture Urbane - Svelare la Spiritualita` dei Luoghi (transl. Challenges from Urban Cultures - Discover the Spirituality of the Places), held on November 5-6, 2021, in Parma, this book provides readers with a fresh perspective on the meaning of city, city as a community and as a place, and on strategies to develop suburbs besides city centres, and to foster integration, and participation.
