The Starter Marriage and the Future of Matrimony Pamela Paul, 2003-01-14 A pioneering look at first marriages lasting five years or less and ending without children, Paul's book "will be a lesson to those contemplating marriage and a comfort to those who falter" (The Economist). What is it about marriage that makes today's twenty- and thirtysomethings want it so badly? And why do so many of their marriages, despite high hopes and desires, end in divorce? Nobody goes into a starter marriage expecting to divorce and trade up to something better, but like a starter home, a starter marriage can teach you a lot about what to look for, and what to avoid, the next time around. Drawing on extensive research and interviews with starter-marriage vets, Pamela Paul explores why young people are jumping in and out of marriage, and what lessons can be drawn from their failures. She shows how starter marriages can be avoided, and why lifelong marriage is still a desirable, achievable option for the next marrying generation.

Contemporary Issues in Counseling Pamela K. S. Patrick, 2007 This compelling book stimulates readers to explore and critically analyze contemporary issues faced by helping professionals practicing in a dynamic and changing environment. Issues reflect current trends as well as emerging practice topics not addressed in other books, such as coaching, disaster counseling, and the bio-psycho-social model. The book focuses its attention on key issues that all counselors can identify with within three major sections: the first sets the stage that is the environment of contemporary counseling practice; section II focuses on issues that directly apply to counseling practice and that appear in the headlines in the lives of counselors; and Section III addresses the emerging topics that will become topics of research in the years ahead. Features of the book include the use of current research, theory and applications to provide a contemporary review of key issues counselors face in every-day practice, may encounter while in training, or that are emerging as innovations within the counseling and human services fields of practice. Case vignettes are used throughout all chapters to bring the content alive to the reader and present examples of how the issues described are in evidence in the real world of the counseling practitioner. Issues of culture, ethnicity and diversity are highlighted throughout the text. Discussion questions/topics at end of each chapter highlight key concepts by applying the chapter content to the topics/questions. Topics additionally are linked to in-text content sections of each chapter to reinforce application of theory and research to practice.
