Reading History in the Roman Empire Mario Baumann, Vasileios Liotsakis, 2022-01-19 Although the relationship of Greco-Roman historians with their readerships has attracted much scholarly attention, classicists principally focus on individual historians, while there has been no collective work on the matter. The editors of this volume aspire to fill this gap and gather papers which offer an overall view of the Greco-Roman readership and of its interaction with ancient historians. The authors of this book endeavor to define the physiognomy of the audience of history in the Roman Era both by exploring the narrative arrangement of ancient historical prose and by using sources in which Greco-Roman intellectuals address the issue of the readership of history. Ancient historians shaped their accounts taking into consideration their readers' tastes, and this is evident on many different levels, such as the way a historian fashions his authorial image, addresses his readers, or uses certain compositional strategies to elicit the readers' affective and cognitive responses to his messages. The papers of this volume analyze these narrative aspects and contextualize them within their socio-political environment in order to reveal the ways ancient readerships interacted with and affected Greco-Roman historical prose.

The Perfect Portfolio Leland B. Hevner, 2009-03-23 Today's world of personal investing is not a friendly place. Individuals are assaulted with an unending barrage of financial news, expert advice, investing tools, trading systems, and more, to the point where they are overwhelmed. As a result, most people simply entrust their portfolios to third-party advisers and, in doing so, lose control of their financial security. Nobody is more familiar with this situation than author Leland Hevner. As President of the National Association of Online Investors (naoi.org) and a longtime educator in this field, he understands that to succeed in today's chaotic markets you don't need more news, advice, or analysis tools. Instead, you need a completely new and simpler approach to building an effective portfolio on your own one that includes updated investing concepts and dramatically new ways of looking at the market. That's why he created The Perfect Portfolio. Written in a straightforward and accessible style, this reliable resource shows you, step by step, how to use a revolutionary approach

to investing called the Perfect Portfolio Methodology (PPM). Developed by Hevner over the course of his successful career and based on input from hundreds of individual investors, the PPM allows you to capture incredible returns under any market condition without exposing yourself to unacceptable risk or requiring you to devote an extraordinary amount of time to the investing process. The journey to creating your unique Perfect Portfolio is divided into three parts: Part I reveals the problems faced by today's investors, outlines a new approach for solving them, and gets you started by showing how to design the Core Segment or foundation of your Perfect Portfolio Part II details how to supercharge your Perfect Portfolio's returns by adding a Target Market Segment consisting of five newly defined asset classes Part III illustrates how you can bring the Core and Target Market Segments together to form a Perfect Portfolio that meets your unique investing profile and current market conditions This is a book that financial advisers will not want you to read. Why? Because it takes them out of the loop by empowering you to make informed and profitable investing decisions on your own. The Perfect Portfolio places the power to control your wealth firmly in your hands, where it belongs. The Perfect Portfolio is more than just a book. It also includes a supplemental online component you can access via the Web at www.perfectportfoliobook.com. The use of this resource is not required to take full advantage of the book's content, but the information and tools presented in the online component can enhance your overall learning experience.

All About Me Sotirios Majoros,2019-11-29 When Sotirios Majoros's thirteen-year-old daughter asked him a seemingly simple question, "What is life?", little did she realize the explosion of thoughts and ideas that she would set off in her father's

mind. To answer her question, Sotirios found himself looking back through time to the father of history, Herodotus, and across humanity's numerous cultures, focusing in particular on how this question is expressed through various pieces of artwork, such as sculptures and paintings. He also looked back through his own life, eventually realizing that lurking beneath his daughter's question was an even more fundamental question: Who am I? His attempt to answer this question forms the foundation of this book.

Latin Biography T A Dorey, 2023-10-13 First published in 1967, Latin Biography contains chapters on Nepos, Plutarch and Suetonius, the three best-known Classical biographers. There are also accounts of the less-familiar works of Q. Curtius Rufus and the author - or authors - of the Historia Augusta, and three chapters deal with the development of Latin biography in the Middle Ages. The Middle Ages were indebted to Suetonius, Shakespeare to Plutarch, Gibbon to the Historia Augusta. Since the Renaissance their methods have gradually been superseded by a more critical and scientific approach, but the ancient biographers can always claim the credit for having established biography as a major form of literature. This book will be of interest to students of literature and classical studies.
