Fragments of the Lost Megan Miranda, 2017 Even though she thinks Caleb's mom blames her for his accidental death two months ago, Jessa agrees to pack up her ex-boyfriend's bedroom, but every item she touches makes Jessa question what she knows about his death, his family, and their year-long relationship.

Irenaeus, Vol. II. - Hippolytus, Vol. II. - Fragments of Third Century Hippolytus Romanus, Irenaeus Lugdunensis, 1869

The Fragments of the Roman Historians Tim Cornell, Edward Bispham, John Rich, 2013 This title is a definitive and comprehensive edition of the fragmentary texts of all the Roman historians whose works are lost. Historical writing was an important part of the literary culture of ancient Rome, and its best-known exponents, including Sallust, Livy, Tacitus, and Suetonius, provide much of our knowledge of Roman history. However, these authors constitute only a small minority of the Romans who wrote historical works from around 200 BC to AD 250. In this period we know of more than 100 writers of history, biography, and memoirs whose works no longer survive for us to read. They include well-known figures such as Cato the Elder, Sulla, Cicero, and the emperors Augustus, Tiberius, Claudius, Hadrian, and Septimius Severus--Page 4 of cover.

Ante-Nicene Christian Library: Irenaeus, v. 2, Hippolytus, v. 2, Fragments of third century (1869) Alexander Roberts, Sir James Donaldson, 1869

A Companion to Yi jing Numerology and Cosmology Bent Nielsen, 2013-04-15 Translations of the Yi jing into western languages have been biased towards the yili ('meaning and pattern') tradition, whereas studies of the xiangshu ('image and number') tradition - which takes as its point of departure the imagery and numerology associated with divination and its hexagrams, trigrams, lines, and related charts and diagrams - has remained relatively unexplored. This major new reference work is organised as a Chinese-English encyclopedia, arranged alphabetically according to the pinyin romanisation, with Chinese characters appended. A character index as well as an English index is included. The entries are of two kinds: technical terms and various other concepts related to the 'image and number' tradition, and bio-bibliographical information on Chinese Yi jing scholars. Each entry in the former category has a brief explanation that includes references to the origins of the term, cross-references, and a reference to an entry giving a more comprehensive treatment of the subject.
