Serving Young Teens and 'Tweens Sheila B. Anderson, 2006-11-30 Notable teen experts and stellar practitioners from across the country explain why library service to adolescents in this age range is so important, and how you can enhance your collection and services to accommodate and win over this important group. Topics range from understanding adolescent informational needs and building and promoting a winning collection, to creating programs with tween appeal. Contributors include Sheila B. Anderson, James Rosinia, Deb Taylor, Robyn Lupa, and Kristine Mahood. Brimming with valuable insights and fresh ideas, as well as nuts and bolts directions, this is a must read for all librarians who work with young adolescents. If someone is described as a young adult, what image comes to mind? In fact, a young adult can be a twelve-year-old middle-schooler or a high school graduate. Libraries have traditionally offered a variety programs and services for YAs, and although more emphasis has been given to serving teens in recent years, little has been done to distinguish between groups within the category, and meet the specific developmental needs of this broad range of library users. This collection complements Anderson's previous collection, *Serving Older Teens*, by focusing on the needs of tweens and young teens, ages 11-14. This is the age range when many young people stop using the library and lose interest in reading. I Want to Talk with My Teen about Money Management Lisa Crayton, 2006-10-02 From earning, saving, and investing to tithing, spending, and avoiding the pitfalls of poor credit, this book offers clear, concise information about the impact of money and what it means to teens' faith filled lives. - Back cover.

*The Teen With A Millionaire Mindset* Laura Lyseight, 2010-03-01 As a teen, I bet you have been told many times or, in your subconscious mind, you have the idea that having too much money is evil or bad. Then again, you might have heard people talk about how only the mean and bad guys have all the money or that money is not easy to come by. Have you, however, wondered why most of the grown-ups you know have become given-ups? Have you noticed the frustrations that most adults are going through living average lives? Truth is, your own mindset can make or break you. The society and the environment in which we find ourselves have succeeded in making the majority of people think there is barely enough and have programmed people to live in mediocrity. As a young person, are you prepared to tow this line or are you prepared to change your mindset, to shift your consciousness and awareness to abundance? This book throws light on how most minds are untapped and exposes the hidden capabilities of the young millionaire's mind. Do you want to set your mental frequency to abundance? It is your rightful position in life. "Millionaires are made, not born" (Laura Lyseight). Once you start thinking right at this stage in your life, the rest will be history because you will surely make your millions and even billions. "You are only young once and if you work it right, once is enough" (Joe E. Lewis).
