The Greengrocer's Diet Judy Davie, 2015-02-01 Judy Davie The Food Coach believes that, in an era of expensive health food 'product' and complex but highly restrictive diets, the best approach to weight loss and better health is relatively simple and based on readily available ingredients with an emphasis of fresh produce. Vegetables and fruit are the lowest calorie and highest nutrient options around. If eaten seasonally and prepared well, they are also cheap and delicious. Boosting a meal with vegies makes us feel fuller and diminishes our desire for unhealthy foods. The Greengrocer's Diet is a complete seasonal-based eating program that promotes long-term weight loss and good health. The diet is based on seasonally available ingredients and draws from all the major food groups - meat and fish, grains, dairy, and of course fresh fruit and vegetables. Stick to the portions and you will lose weight; increase the portions slightly and it's suitable for the whole family. The book includes over 220 delicious recipes all beautifully photographed, seasonal lists, meal plans, nutritional guidelines for every dish and clear, safe advice on occasional fasting. Also included are the success stories of The Greengrocer's Diet participants, some of whom have lost up to 32 kilograms. Other benefits of the diet include lowered blood pressure, improved digestion, better sleep, improved skin and hair quality and big increases in energy levels. Practical and delicious, this is a diet that will help you lose weight safely and over the long term, and will steer you towards a way of eating you and your family will benefit from forever. This is a specially formatted fixed layout ebook that retains the look and feel of the print book.
