**Capital Cities around the World** Roman Adrian Cybriwsky, 2013-05-23 This informative resource is a fascinating compilation of the history, politics, and culture of every capital city from around the world, making this the only singular reference on the subject of its kind. Every country, even the world's youngest nations, has a capital city—a centralized location which houses the seat of government and acts as the hub of culture and history. But, what role do capital cities play in the global arena? Which factors have influenced the selection of a municipal center for each nation? This interesting encyclopedia explores the topic in great depth, providing an overview of each country's capital—its history and early inhabitants, ascension to prominence, infrastructure within the government, and influence on the world around them. The author considers the culture and society of the area, discussing the ethnic and religious groups among those who live there, the major issues the residents face, and other interesting cultural facts. *Capital Cities around the World: An Encyclopedia of Geography, History, and Culture* features the capital cities of 200 countries across the globe. Organized in alphabetical order by country, each profile combines social studies, geography, anthropology, world history, and political science to offer a fascinating survey of each location.

**Capital City** Color Smart, 2017-06-17 The capital City is the area of a country, province, region, or state regarded as enjoying primary status and it is generally recognized as a city which physically encompasses the offices and meeting places of the seat of government, or which is fixed by law or by the constitution. In some jurisdictions, including several countries, the different branches of government are located in different settlements. In some cases, a distinction is made between the official (constitutional) capital and the seat of government, which is in another place. Capital cities are also the prime economic, cultural, or intellectual center of a nation or an empire is sometimes referred to as a primate city. Examples include Athens, Beijing, Brussels, Buenos Aires, Cairo, London, Mexico City, Paris, Stockholm, Tokyo, and Warsaw. Although many capitals are defined by constitution or legislation, many long-time capitals have no legal designation as such: for example Bern, Edinburgh, Lisbon, London, Paris, and Wellington. They are recognized as capitals as a matter of convention, and because all or almost all the country's central political institutions, such as government departments, supreme court, legislature, embassies, etc., are located in or near them.
