Reading First and Beyond Cathy Collins Block,Susan E. Israel,2005-04-07 Reading proficiency is the most fundamental learning skill, critical to students' success. Renowned educators and authors Cathy Collins Block and Susan Israel present an indispensable guide that will give teachers and literacy coaches crystal clear understanding of the evidenced-based instructional practices required by Reading First Legislation, along with the tools to incorporate them. The authors further expand the support for enriched classroom practice through evidence and practical how-to advice for additional domains that show proven benefits for students, including writing, metacognition and oral language. Through their explanations, teaching directions, and sample lessons, this resource bridges the gap between key research and daily reading classroom teaching. It also summarizes the educator-relevant provisions and requirements of Reading First and the No Child Left Behind federal programs. Each chapter includes: Short classroom-relevant research summaries for teachers- What teachers need to know about phonics, phonemic awareness, vocabulary, comprehension, and fluency- Lesson plans addressing each literacy domain- Components to assess learning- Strategies to differentiate for special learners, ELL, and advanced readers. *Reading First and Beyond* is packed with enriching ideas for all educators that will enhance their list of literacy instructional strategies, helping them achieve high levels of reading proficiency from all students.

For many educators, middle school is the last chance to put in place strong, positive learning patterns that will last through high school and beyond. Middle and Secondary Classroom Management: Lessons from Research and Practice Carol Simon

Weinstein, 2007 By integrating the thinking and the actual management practices of four real secondary teachers into discussions of research-based management principles, this introductory text helps readers connect theories with actual results. Further, the text demonstrates how real teachers can adapt to any circumstance--physical room constraints, curriculum requirements, challenging behaviors--and still be successful.

Secondary Classroom Management Carol Simon Weinstein, 2003 Secondary Classroom Management presents an introduction to classroom management in secondary schools. Written in a lively, engaging, conversational style, it combines what research has to say about effective classroom management with knowledge culled from practice. This text focuses on real decisions made by real teachers as they manage the complex environment of the secondary classroom. The text integrates the thinking and the actual management practices of four real secondary school teachers into discussions of research-based management principles. Readers come to know these teachers. We hear about the classes they teach and about the physical constraints of their rooms. We hear them reflect on their rules and routines and watch as they teach these rules and routines to students. We listen as they talk about motivating students and building community, and as they discuss appropriate ways to deal with misbehavior. Secondary Classroom Management is well-organized and more comprehensive than many classroom management texts, with chapters on building safer, more caring classrooms; working with families; using time effectively; motivation; working with troubled students; and violence prevention. It also addresses the managerial challenges involved in a variety of instructional formats, such as recitations, discussions, and groupwork.

Elements of Fiction Writing - Description Monica Wood,1995 Description is most powerful when it's visible, aural, tactile. Make your descriptions fresh and they'll move your story forward, imbue your work with atmosphere, create that tang of feeling that editors cry for and readers crave. Monica Wood helps you squeeze the greatest flavor from the language. She segments description like an orange, separating its slices to let you sample each one. You'll learn about: Detail, and how you can use description to awaken the reader's senses of touch, taste, hearing, smell and sight Plot, from advancing story using only relevant description—and how to edit out sluggish, reader-stopping writing Style, and the use of description to create a mood that matches your story's content Point of view, how selecting omniscient, first person or third person limited narrative influences the descriptive freedom you have Creating original word depictions of people, animals, places, weather and movement Wood teaches by example, developing stories with characters in various situations, to show you how you can apply description techniques. You'll also see samples of work by such noted writers as Mark Helprin, Anne Tyler and Raymond Carver. And you'll find the dos and don'ts, lists and descriptive alternatives to common verbs and nouns, and tips for editing your work.
