The Trauma Golden Hour Adonis Nasr, Flavio Saavedra Tomasich, Iwan Collaço, Phillipe Abreu, Nicholas Namias, Antonio Marttos, 2019-11-27 The Golden Hour is a well-established concept in emergency medicine, related to the critical period of one hour after an injury, accident or trauma. This term implies that the mortality rates increase substantially if efficient care is not provided within 60 minutes after the trauma. This book is intended as a practical manual in Trauma Care within the context of the golden hour, addressing all trauma types and all body parts. Readers will find essential decision-making algorithms and protocols with commentary for traumas, along with easily accessible information on how to treat patients in a very practical and handy fashion. Furthermore, the content is presented in a didactic way suitable for a wide audience, from medical students who want to learn about the basics of trauma care to experienced surgeons seeking a comprehensive guide to trauma-related interventions. The book combines contributions from experts at two renowned Trauma Centers, the Hospital do Trabalhador at Curitiba, Brazil, and the Ryder Trauma Center in Miami, USA. Therefore, considering the different local environments and resources, the book provides distinct perspectives for several injuries, presenting the state of the art in Trauma Care. The diversity of perspectives in this book contributes to a global health care approach suitable for trauma-related events from developed countries to remote areas. The Trauma Golden Hour - A Practical Guide celebrates the Centennial Anniversary of the Federal University of Parana (Brazil), the 25th Anniversary of the Ryder Trauma Center (USA) and the 20th Anniversary of the Hospital do Trabalhador (Brazil).

Outdoor Emergency Care: A Patroller's Guide to Medical Care Sixth Edition National Ski Patrol, 2025-10-01 Effective July 1, 2025: The Outdoor Emergency Care (OEC) course is now fully administered through NSP's Center for Learning on the nsp.org website. The Navigate Advantage Access version is no longer in use. All students should enroll directly through the NSP Center for Learning platform. You will access your course materials through the NSP Center for Learning once enrolled.

Please consult your instructor or Instructor of Record if you have any questions about accessing the course or selecting the correct textbook format. Developed in partnership with the National Ski Patrol, *Outdoor Emergency Care: A Patroller's Guide to Medical Care*, Sixth Edition, is designed to prepare first responders to handle any medical situation in the outdoor environment, during all seasons. The Sixth Edition features: A straightforward, consistent patient assessment process. The patient assessment process is presented in the same way patients are assessed in the health care system. Flowcharts are provided throughout the Patient Assessment chapter to keep the reader focused on each step of the process. Up-to-date content. As you read through each chapter, you will find new information that is current with present prehospital patient care. Subject matter that meets and, in many cases, exceeds the National Emergency Medical Responder criteria. Information unique for ski and bicycle patrollers, including extrication, is included. This material is presented in a format that combines the disciplines of urban EMS and wilderness medical rescue. Continuous case studies. A continuous case study is included in each chapter to encourage critical thinking and application of the information as readers progress through the chapter. End-of-chapter review questions. The review questions included at the end of each chapter allow students to evaluate the knowledge they have gained while reading the chapter. Focus on learning objectives. Specific objectives listed at the beginning of each chapter tell students at the outset what they are expected to learn as they move through the chapter.

MEDINFO 2015: eHealth-enabled Health Andrew Georgiou, Paulo Mazzoncini de Azevedo Marques, 2015-09-15 Health and Biomedical Informatics is a rapidly evolving multidisciplinary field; one in which new developments may prove crucial in meeting the challenge of providing cost-effective, patient-centered healthcare worldwide. This book presents the proceedings of MEDINFO 2015, held in São Paulo, Brazil, in August 2015. The theme of this conference is 'eHealth-enabled Health', and the broad spectrum of topics covered ranges from emerging methodologies to successful implementations of innovative applications, integration and evaluation of eHealth systems and solutions. Included here are 178 full papers and 248 poster abstracts, selected after a rigorous review process from nearly 800 submissions by 2,500 authors from 59 countries. The conference brings together researchers, clinicians, technologists and managers from all over the world to share their experiences on the use of information methods, systems and technologies to promote patient-centered care, improving patient safety, enhancing care outcomes, facilitating translational research and enabling precision medicine, as well as advancing education and skills in Health and Biomedical Informatics. This comprehensive overview of Health and Biomedical Informatics will be of interest to all those involved in designing, commissioning and providing healthcare, wherever they may be.

Carry On Lisa Fenn, 2016-08-16 "An incredible life-affirming story" about an unexpected, lifechanging relationship between an ESPN producer and two disabled, inner-city athletes (Family Circle). When award-winning ESPN producer Lisa Fenn returned to her hometown for a story about two wrestlers at one of Cleveland's toughest public high schools, she had

no idea that the trip would change her life. Both young men were disadvantaged students with significant physical disabilities. Dartanyon Crockett was legally blind as a result of Leber's disease; Leroy Sutton lost both his legs at eleven, when he was run over by a train. Brought together by wrestling, they had developed a brother-like bond as they worked to overcome their disabilities. After forming a profound connection with Dartanyon and Leroy, Fenn realized she couldn't just walk away when filming ended; these boys had had to overcome the odds too many times. Instead, Fenn dedicated herself to ensuring their success long after the reporting was finished and the story aired—and an unlikely family of three was formed. The years ahead would be fraught with complex challenges, but Fenn stayed with the boys every step of the way—teaching them essential life skills, helping them heal old wounds and traumatic pasts, and providing the first steady and consistent support system they'd ever had. This powerful memoir is one of love, hope, faith, and strength—a story about an unusual family and the courage to carry on, even in the most extraordinary circumstances. “A poignant memoir.” —Sports Illustrated “A profoundly moving memoir about two boys who become men in the face of life's toughest challenges: We see the many ways in which one person can carry another, and we are inspired to do the same.” —Tim Howard, New York Times—bestselling author of *The Keeper* “An astonishingly beautiful tale . . . like *The Blind Side* or *Same Kind of Different As Me*, Lisa Fenn's work forces us to reframe our definition of family.” —Kevin Salwen, author of *The Power of Half* “A heartfelt memoir that grips you from the first page and pulls at your soul until the end” —Steve Eubanks, New York Times—bestselling author of *All American*
