Explaining Traditions Simon J. Bronner,2011-08-26 Why do humans hold onto traditions? Many pundits predicted that modernization and the rise of a mass culture would displace traditions, especially in America, but cultural practices still bear out the importance of rituals and customs in the development of identity, heritage, and community. In *Explaining Traditions: Folk Behavior in Modern Culture*, Simon J. Bronner discusses the underlying reasons for the continuing significance of traditions, delving into their social and psychological roles in everyday life, from old-time crafts to folk creativity on the Internet. Challenging prevailing notions of tradition as a relic of the past, *Explaining Traditions* provides deep insight into the nuances and purposes of living traditions in relation to modernity. Bronner's work forces readers to examine their own traditions and imparts a better understanding of raging controversies over the sustainability of traditions in the modern world.

Hidden History Donald Jeffries,2016-08-23 The US government has spent as much time covering up conspiracies as it has helping the American people. In *Hidden History*, you will see the amount of effort that our government has dedicated over the past fifty years to lying and covering up the truth to the world. Starting with the assassination of President John F. Kennedy, Don Jeffries chronicles a wide variety of issues that have plagued our country's history. Whether it is the assassinations of MLK and RFK, Iran-Contra, the Oklahoma City bombing, TWA Flight 800, voting fraud, or 9/11, every major disaster or war that we've witnessed has somehow been distorted by those who are supposed to be protecting us. Jeffries also delves into extensive research on the death of John F. Kennedy, Jr. - and what he finds will shock you. So whether you've only heard bits and pieces of these stories or you've read several books on the topics, *Hidden History* is the book that belongs in every conspiracy theorist's library, as the information included here has never been collected together in any other published work available. So sit down, strap in, and get ready to be shocked and awed by how much has been hidden by our government over the past fifty years. Updated for 2016, this version features a new introduction by political insider Roger Stone.
