Know it All, Find it Fast for Youth Librarians and Teachers Christine Donnelly, 2012 A brand new version of the best-selling enquiry desk reference text, *Know it All, Find it Fast*, specifically designed for those working with children and young people in schools, public libraries and at home. Including an invaluable overview of the education system and the school curriculum as well as a comprehensive listing of useful resources by topic, this A-Z covers school subjects from science and maths to reading and literacy, and more general themes such as children's health, wellbeing and hobbies. Each topic is broken down into useful sections that will help to guide your response; Typical questions outline common queries such as 'Have you got any information about volcanoes?' Considerations provides useful hints and tips i.e. 'Geography now encompasses not only physical and human geography but also environmental geography, social geography, geology and geopolitics.' Where to look lists relevant printed, digital and online resources with useful annotations explaining their scope and strengths Readership: This is the must-have quick reference tool arming librarians and teachers with the knowledge to deal with any queries thrown at them from children and young people as well as their parents and caregivers. It will also be a handy reference for parents and anyone working with children and young people in other organizations such as homework clubs and youth workers.

Teaching Literature and Language Through Multimodal Texts Domínguez Romero, Elena, Bobkina, Jelena, Stefanova, Svetlana, 2018-08-17 In the past few decades, there has been a growing interest in the benefits of linking the learning of a foreign language to the study of its literature. However, the incorporation of literary texts into language curriculum is not easy to tackle. As a result, it is vital to explore the latest developments in text-based teaching in which language, culture, and literature are taught as a continuum. *Teaching Literature and Language Through Multimodal Texts* provides innovative insights into multiple language teaching modalities for the teaching of language through literature in the context of primary, secondary, and higher education. It covers a wide range of good practice and innovative ideas and offers insights on the impact of such practice on learners, with the intention to inspire other teachers to reconsider their own teaching practices. It is a vital reference source for educators, professionals, school administrators, researchers, and

practitioners interested in teaching literature and language through multimodal texts.

Discover Sociology: Core Concepts Daina S. Eglitis, William J. Chambliss, 2019-11-08 Discover Sociology: Core Concepts explores sociology as a discipline of curious minds, in 12 high-priority chapters that focus on theoretical, conceptual, and empirical tools needed to understand, analyze, and even change the world. The Second Edition of Core Concepts is ideal for semester-long courses where instructors want to spend more time on core topics and/or assign other course materials, as well as shorter courses (quarter schools, summer and intersession courses).

Connecting Across Disciplines Susan Chenelle, Audrey Fisch, 2016-02-10 While the Common Core has made informational text a focal point in English/language arts classrooms around the country, it has also made literacy a key concern in other subjects. Teaching literacy in the disciplines and navigating informational texts are challenging prospects. How can content-area teachers find high-quality informational texts that will enhance their curriculum? How do they go about working with these new texts? Most importantly, how do teachers balance their responsibility towards their subject matter with the new charge to incorporate disciplinary literacy? The key is to connect, communicate, and collaborate. Teachers can meet these challenges together and enhance student literacy, engagement, and motivation along the way. This volume offers a practical model that teachers in any discipline can use to incorporate informational texts into their classrooms on their own or in collaboration with colleagues in other content areas. We also share suggestions and ideas for initiating and implementing collaboration between teachers of any discipline, even those working at the secondary level with complex schedules and curricula.

Building Bridges Clare Kosnik, Simone White, Bethan Marshall, A. Lin Goodwin, Jean Murray, 2016-07-15 Literacy learning continues to be central to schooling, and is currently of major concern to educators, policy developers, and members of the public alike. However, the proliferation of communication channels in this digital era requires a fundamental re-thinking of the nature of literacy and the pedagogy of literacy teaching and teacher education. This text brings together papers by experts in teacher education, literacy, and information technology to help chart a way forward in this complex area. Because of their background in teacher education, the authors are realistic about what is appropriate and feasible – they do not just jump on a technology bandwagon – but they are also able to provide extended examples of how to embed technology in the practice of teacher education. “Taking a multi-disciplinary perspective (literacy, teacher education and digital technology) and informed by a range of empirical studies, policy analyses and scholarly reflection, this book makes a unique contribution to the literature on one of education’s most pressing challenges: how we prepare teachers of literacy at a time when understandings of literacy are expanding. Chapters by leading researchers are complemented by those offering illuminating vignettes of practice that, in turn, provide opportunities for interrogation by the rich theoretical toolkit that characterizes the field. The book is thoughtfully structured and manages a coherence that is rare in edited collections. An

impressive and heartening read.” – Viv Ellis, Professor of Education at Brunel University, England and Bergen University College in Norway

Regulating Government Ethics Chonghao Wu, 2016-10-20 This book examines government ethics rules and their enforcement in China, as well as in three other jurisdictions for comparative insights. Empirical research methods (involving primarily semi-structured interviews) have been employed to explore the dynamics of actual enforcement policies and practices in China. This book forms an analytical framework through reviewing existing theories on government ethics regulation and general regulation literature and analyzing government ethics rules in the US, the UK, and Hong Kong. Using this framework, it seeks to explore the patterns and features of government ethics rules and their enforcement in China. It shows that the inadequacy of government ethics rules per se and the deterrence-oriented criminal enforcement style of government ethics regulation are important but ignored elements of the problem of rampant corruption in China. Such analysis has generated important and practical policy implications for China's government ethics rules and their enforcement.

Teaching Strategy Gabriel Marcella, 2010 Teaching all strategy, from grand to military, is essential in the preparation of national security professionals and military leaders. The experience of the armed forces in recent wars recommends that those involved with the system of military education seriously study the way strategy is taught. The task is even more imperative because the ambiguous conflicts and the complex geopolitical environment of the future are likely to challenge the community of strategists, civilian as well as military, in ways not seen in the past. In this context, developing the appropriate curriculum and effective methods of teaching strategy will be the responsibility of universities, colleges, and institutions of professional military education. The authors of this compendium ask and answer the central question of how to teach strategy. The findings, insights, and recommendations in this volume are those of professionals who are accomplished in the classroom as well as the crucible of strategy.

How to Write Anything: A Guide and Reference with Readings John J. Ruszkiewicz, Jay T. Dolmage, 2012-02-01 How to Write Anything supports students wherever they are in their writing process. Lord of the Flies William Golding,2016-11-15 William Golding's unforgettable classic of boyhood adventure and the savagery of humanity comes to Penguin Classics in a stunning Graphic Deluxe Edition with a new foreword by Lois Lowry As provocative today as when it was first published in 1954, Lord of the Flies continues to ignite passionate debate with its startling, brutal portrait of human nature. William Golding's compelling story about a group of very ordinary boys marooned on a coral island has been labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, and even a vision of the apocalypse. But above all, it has earned its place as one of the indisputable classics of the twentieth century for readers of any age. This Penguin Classics Graphic Deluxe Edition features an array of special features to supplement the novel, including a foreword by Lois Lowry, an introduction by Stephen King, an essay by E. M. Forster, an essay on teaching and reading the novel and suggestions for further exploration by scholar Jennifer Buehler, and an extended note by E. L. Epstein, the publisher of the first American paperback edition of Lord of the Flies. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
