Manual de ergonomía para el diseño o evaluación de productos Jorge Cacho, 2025-07-14 La ergonomía tradicional se especializa en el diseño de lugares de trabajo, herramientas y tareas, considerando tres elementos para su estudio: al hombre, la máquina y la labor. El éxito de la ergonomía se ha extendido apoyando a diferentes profesiones, entre ellas al diseño industrial que es una carrera que exige el conocimiento de la profesión y de infinitos campos de conocimientos y aplicaciones. El diseñador es un innovador y, al mismo tiempo, un perfeccionista de lo ya existente. Esta obra llena un vacío actual, ya que los textos existentes en ergonomía de producto, en gran medida son una prolongación de los textos clásicos. El mundo manufacturero actual es muy distinto al del siglo XX. La globalización, las comunicaciones y la tecnología están cambiando la forma de diseñar, los mercados y las necesidades del consumo. Tomando esto en consideración, el libro no pretende contestar todas estas preguntas, pero sí es una guía de cómo no perderse en el intento. Pretende hacer al diseñador un especialista en los diversos campos expuestos, pero le guía en el método de cómo usar la información para alcanzar las metas en los proyectos de diseño sin caer en abusos.

Ethics without Principles Roy H. May, 2015-10-21 Ethics in the West too often equates morality with universal moral principles, thus imposing lifestyles and moral criteria that do not respect differences and local histories. Even Christianity proposes ethics that is based on eternal, absolute and universal truths or principles, independent of sociocultural and historical contexts. The problem is that these universal moral laws become a means of social control to exclude those who are different: non-Christian religions, nonwhite races, non-Western cultures, and poor and marginalized social classes everywhere. To these can be added minorities marginalized because of sexual orientation, physical handicaps, and women of all sectors and cultures. Another kind of ethics is urgent. For these reasons, Christians in Latin America and other parts are seeking innovative ways of envisioning ethics from their marginalized and discriminated social locations in order to find another possible ethics, an ethics that is not universal and not based on eternal truths or principles, but rather is contextual and historical and that takes into account real-life realities. Only an ethics that does this will be liberative. Important steps toward this other possible ethics have been taken by the theology of liberation by developing a contextual and intercultural morality.

Cienciología Lawrence Wright, 2013-11-07 El Premio Pulitzer Lawrence Wright realiza una extraordinaria investigación

sobre la Iglesia de la Cienciología, una de las organizaciones más poderosas y cuestionadas del mundo. ¿Qué se esconde detrás de la iglesia de la Cienciología? ¿Cómo ha logrado convertirse en una de las organizaciones más ricas y poderosas del planeta? ¿Por qué estrellas como Tom Cruise y John Travolta son fieles devotos de una de las organizaciones más criticadas del mundo? Lawrence Wright, premio Pulitzer por *La torre elevada*, y uno de los grandes periodistas de investigación del mundo, ofrece respuestas a estas y a otras muchas preguntas, y nos desvela la historia y la complicada cosmología de una organización tan intrigante como poderosa que ha conseguido captar a ricos y famosos y ha sabido utilizarlos para alcanzar sus objetivos. A través de un trabajo de investigación sin precedentes sobre una de las instituciones más opacas y secretistas que existen, Wright reflexiona sobre qué convierte un culto cualquiera en una religión, y sobre por qué los seres humanos eligen unas creencias sobre otras. Una historia apasionante que aborda el atractivo de la fe extrema y el coste de abandonarla. Reseñas: «Una historia completamente necesaria... un reportaje sobresaliente. La historia de la Cienciología es la gran ballena blanca de la investigación periodística sobre religión.» *The Wall Street Journal* «Un libro poderoso... una lectura esencial.» *The New York Times Book Review* «¿Quién podría pensar que la historia de una religión ofrecería tantos placeres culpables? El cautivador relato del ascenso de la Cienciología se completa con la historia de los escándalos de los famosos. Todos los interesados en los rumores de Hollywood disfrutarán con los capítulos de Tom Cruise y John Travolta.» *Los Angeles Times* «Lawrence Wright ofrece una investigación lúcida y valiente de la Cienciología -su historia, teología, su jerarquía- y el resultado es la evidencia de que la realidad puede superar la ficción.» *The Washington Post*

La libertad y sus enemigos Mauricio Rojas, 2016 El hilo conductor de los textos que componen este libro está dado por los grandes conflictos de la época moderna entre las ideas que buscan promover un orden social al servicio de la libertad de las personas y aquellas que, en nombre de intereses o utopías de corte colectivista, están dispuestas a sacrificarla. Este conflicto no nos ha sido ajeno. Ha marcado nuestras grandes disyuntivas históricas y está presente, con fuerza, en la actualidad. Chile vive un momento de desconcierto y de ruptura del consenso en el que se perfilan opciones claramente divergentes: unas que buscan profundizar el camino de la libertad personal y otras que quieren limitarla a fin de alcanzar objetivos supuestamente superiores. En los ensayos aquí reunidos Mauricio Rojas aborda tres grandes temas. Primero, la naturaleza de las ideas que amenazan la libertad, tratando de entender el secreto de su enorme atracción y su devastadora fuerza. Luego, los fundamentos y dilemas de las ideas de la libertad, precisando una opción por un liberalismo abierto, integral, asociativo y solidario. Finalmente, se revisa la sorprendente evolución de Chile durante las últimas décadas y sus desafíos actuales.

Nuevas realidades: un enfoque desde el derecho, La presente obra de carácter multidisciplinar ha sido desarrollada por un número nada desmerecido de juristas provenientes de distintas ramas del saber jurídico que, en las siguientes páginas, abordan un estudio incipiente y novedoso desde el Derecho, no antes tratado. Por tanto, el hilo conductor de la obra

colectiva aquí presentada vincula a todos los autores en el tratamiento novedoso de los temas analizados, bien porque son de reciente incorporación al interés jurídico, bien porque se trata de temas clásicos no obstante observados de forma novedosa. Ejemplos del primer caso lo serían los capítulos destinados a abordar la irrupción de la Inteligencia Artificial en el mundo jurídico (I.A. en adelante) como los trabajos de las directoras de la presente obra, M.^a Ángeles Cano Linares y Ana I. Carreras Presencio-, o los trabajos vinculados a esta temática que han ofrecido sobre este novedoso tema de la I.A. y las nuevas tecnologías los doctores Juan Emilio Suñé Cano, Aurelio de Prada García, o José Franco-Chasán, quienes desde la Filosofía del Derecho, los dos primeros, y desde la Historia del Derecho el segundo, o desde el ámbito jurídico internacional las dos directoras, todos arrojan luz sobre un tema nuevo desde la amplia perspectiva que ofrecen las ramas del conocimiento jurídico más clásicas y atemporales. En un segundo bloque podríamos mencionar aquí brevemente los trabajos que abordan temas actuales con una visión novedosa, como los presentados desde el Derecho Mercantil por la doctora Alejandra Cobo del Rosal Pérez, desde el Derecho Civil el presentado por el doctor Alejandro Rosillo Fairén o desde el prisma histórico jurídico europeo, el presentado por el doctor Jesús M.^a Navalpotro Sánchez-Peinado y la doctora Gabriela C. Cobo del Rosal Pérez. Igualmente, desde el prisma histórico jurídico la doctoranda Carmen Caballero Lozano presenta su trabajo en esta coordinada metodológica, si bien, cabe advertir que, por motivo de su doctorado, será la única que no siga los mismos criterios de citas y pautas de edición en la presentación de su trabajo. La metodología planteada por todos los autores es la aquí descrita, que por razones expositivas hemos preferido presentar en trabajos distribuidos, partiendo de la rama jurídica que disciplina a sus autores. Todos los trabajos que se recogen seguidamente constituyen la segunda etapa de un trabajo que ha partido de un diálogo científico interdisciplinar previo. Es pues esta obra colectiva la segunda etapa de una colaboración interdisciplinar que quedó concretada en las Jornadas “Nuevas realidades. Nuevas perspectivas de necesario estudio” celebradas los días 18 y 27 de noviembre de 2024, actividades realizadas bajo el marco de las Ayudas a Congresos, Jornadas, y Seminarios (2024) de la Universidad Rey Juan Carlos, cuyas Actas han sido oportunamente publicadas en el repositorio de la misma institución. Si bien la obra responde a un propósito coordinado y común de avanzar en el conocimiento científico, cada uno de los autores responde individualmente de sus trabajos y opiniones que, en todo caso, respetamos en su rigor científico y con propósito de preservar los derechos fundamentales... M.^a Ángeles Cano Linares

Cuando comenzó el silencio Jesse Ball, 2023-12-01 De un día para el otro, la esposa de Jesse Ball decide dejar de hablarle y ponerle fin a la buena vida que llevaban juntos. Ese silencio voluntario, enigmático, además del dolor que le provoca, lo impulsa a viajar a Japón para investigar un caso que conoce por los diarios y que quizás lo ayude a entender lo que está viviendo: la historia de un hombre que guardó silencio hasta las últimas consecuencias. Se trata de Oda Sotatsu, un simple vendedor de hilos que una noche se cruza en un bar con una pareja que lo convence de jugarse el destino en una apuesta. Al perder, Sotatsu debe firmar una confesión que lo incrimina en las famosas «Desapariciones de Narito», un hecho policial en el que ocho personas se esfumaron sin dejar rastros y que tiene en vilo a una pequeña ciudad japonesa. Sotatsu es arrestado, interrogado y finalmente -ante su tenaz y desconcertante silencio- llevado al corredor de la muerte. Ball reconstruye la vida de Sotatsu visitando archivos y entrevistando a familiares y conocidos y va develando así una fascinante trama de amor, engaño, honor y rebeldía política en la que la verdad tiene muchas caras. Esta novela, que le valió a Jesse Ball la consagración crítica en Estados Unidos, es un juego literario de ejecución prodigiosa y una reivindicación de la originalidad narrativa para volver a conectarnos con la emoción, la verdad y la belleza.
